LADIES' AND MEN'S MODELS

Clinton THE JEWELER,

The Semi-Weekly Tribu...

FRIDAY, MARCH 22, 1901.

T. C. Patterson returned last night from a business trip to Omaha.

Mrs. John Walzenback of Omaha is expected up next week to visit her aunt Mrs. W. H. Fikes.

Sweet Pea Seeds in bulk at McGlone's, Foley block.

J. H. McConnell, superintendent of motive power, was one of the party accompanying President Burt west last evening.

Treasurer Scharmann this week called in ten thousand dollars in 1900 general fund warrants. That is considered a pretty heavy call, and takes up about one-half of the warrants issued on that fund for that year.

Dr. Seymour here Thursday, April 4th, at the Hotel Neville.

The Y. M. C. A. is preparing another ice cream sociable and program to be held in the K. P. Hall, Saturday evening April 13. The proceeds will go toward completing the indebtedness on the new piano. Only 300 tickets will be sold, so secure yours early. Fifteen cents each.

For milch cows and color Eureka Stock Food has no equal.

The retirement of J. H. McConnell from the Union Pacific will be regretted by North Platte old-timers, all of whom have a warm spot in their heart for him. And it is pretty certain that "Little Joe" still counts some of his North Platte acquaintances among his best and most steadfast friends.

We have for sale some school land leases. Also have purchaser for same if in right location.

JOHN BRATT & CO.

Farmers and cattlemen in the south part of the county are beginning to make a kick on account of the appearance of herds of sheep which it is generally admitted soon kill off the grass on the range. They claim that if Lincoln county is to be over run with sheep, they will be compelled to move out.

Harrington & Tobin,

The neatest grocery in town.

Dr. Seymour's many friends and patients will be glad to learn that he has arranged for a personal visit to this city Thursday, April 4th, at the Hotel Neville.

Asked as to how business was, a leading physician said this morning that it was distressingly quiet. This evidently means that cases of grippe, pneumonia and kindred diseases are growing less.

A column advertisement in the New York Journal on a yearly contract costs from fifty to seventy-five thousand dollars per year. This is somewhat in excess of THE TRIBUNE rates.

Feed your horses Eureka Stock Food and get them in condition for spring work. Ask your merchant for it.

Chicago forecast for North Platte and vicinity: Generally fair tonight and Saturday. Colder Saturday. Minimum temperature this morning was 30; one year ago it was 29. Maximum temperature yesterday was 61; one year ago it was 60.

List your bill ranches with us for sale. If price is right we can sell them.

JOHN BRATT & CO.

The action of the county commissioners in ordering foreclosure proceedings against land upon which several years taxes are due is still bearing fruit in the way of inducing delinquents to pay up before the proceedings reach a climax. Nearly every day some such delinquent marches into the district clerk's office and pays up the taxes and the costs. This action of the commissioners has forced the payment of many thousand dollars of delinquent taxes.

Eureka Stock food will do all it claimed for it. Try a package and be convinced.

Commissioner Carpenter, who is up from Buchanan precinct today, says he never saw the hills and canyons as bare of feed as this year. This is due to the large number of cattle pastured and the extreme dry weather which has prevailed since July of last year.

The ground at present is absolutely devoid of moisture, and farmers generally will wait for a rainfall before attempting farming operations to any extent. They consider it folly to put in grain when the ground is so dry.

Owing to illness, Dr. Seymour was unable to fulfill his duties made in this city in January, but as he has quite recovered his health, he will be here without fail Thursday April 4th.

The high vote received by Thompson for United States senator Wednesday and a still higher vote yesterday created considerable feeling in town yesterday. Thompson has not a friend in North Platte; if he has the individual has not been discovered; and the wish was expressed by everyone that he may yet be defeated. Republicans without exception laud Representative Evans for standing firm with the other eight anti-Thompson men.

Alfalfa Seed for Sale. By Joseph Hershey, Locust street, North Platte, Neb.

Some Reasons

FREE LECTURE

under auspices of Tate Lodge No. 64, A. O. U. W., at Lloyd's opera house on next Monday evening, March 25th, at 8 o'clock p. m. Good music and a good social time is assured. Everybody invited.

H. O. Evans returned last night from a business trip to Lincoln.

Remember that Rosco & Holland's minstrels will be at the opera house on the evening of April 24.

Mrs. W. C. Elder and Mrs. J. W. Byer have returned from Lincoln, where they attended the L. O. T. M. convention.

We have stock cattle to trade for house and lot.

JOHN BRATT & CO.

R. C. See, at one time associated with C. L. Williams in the confectionery business in the city, died at Jamestown, N. Y., the early part of the week. The remains were brought to Harvard, Neb., for interment.

The Ogallala Argus says: Nearly two hundred head of cattle belonging to John Orr were driven off by some miscreants last week. They were found near the Kurkiski place Sunday. They bore marks of rough treatment, some of them having been shot and wounded.

Do not fail to see Drs. Seymour and Williams the noted eye, ear, nose and throat specialists, when they are here Thursday, April 4th.

Mrs. John Worthly living northeast of town was suddenly taken very ill yesterday forenoon, and grave fears were expressed for her life. The timely arrival of a physician alleviated the trouble and she is much better today.

Taylor, the Hall county sheep man, has placed twenty thousand head of sheep on the range in the southwestern part of Lincoln and northeastern part of Perkins counties, and we understand will ship in twenty thousand more.

Snow Flake Flour, you know the rest, at McGlone's, Foley block.

A farmer from up north says that the high wind Monday and Tuesday made sand-drifts three and four feet high, and stubble fields were scooped out to a depth of four or five inches. This farmer says that it was the worst wind his vicinity has experienced during his fifteen years residence in Lincoln county.

At the regular meeting of Division 88, B of L E held Wednesday evening a committee was appointed to arrange for the annual May party of the division. The committee named by Chief Engineer Fikes is as follows: Messrs. Doud, Douglas, Austin, Hosler, McCarty, Bird and Doran. The date for the party has not been definitely settled, some favoring April 30th. The committee appointed are active fellows and they are certain to make the party a big success.

Notice

The Ex-soldiers will give their annual bean supper on Saturday evening, March 30, at the K. P. Hall, to which the public is cordially invited. Admission to hall free. Supper fifteen cents. Come and have a good time.

Y. M. C. A. NOTES.

Men, come up to the rooms next Sunday at 3:30 p. m. and hear A. F. Parsons speak on a subject that will interest you. The quartette will sing two fine selections and assist in the song service. The meeting will be in charge of A. Hazencamp.

Railroad Notes.

Engine 1725 is in the back shops on account of a hot driving box.

President Burt went west in his special car on train 101 last evening.

Asst. Supt. Ware returned last evening from his trip east with the pay car.

John Bloemer and Wm. Collins now have the round house pump going full blast.

Engine 781 is switching in the yards in place of the 1160 which is in the back shop.

Owing to heavy storms in Iowa passenger trains from the east were much belated Wednesday.

Dr. Webb, of the New York Central, and his party passed east on a five car special last evening.

Engineer Stuart who should have come down on No. 6 yesterday was held at Sidney to pull the Dr. Webb special.

Machinist D. A. Russell and wife left Thursday night on No. 4 for a ten days' visit with relatives in Lincoln.

The outfit cars, which will be used by the ballast gangs, are now being fitted up at this place. There is quite a string of these cars.

A fifteen hundred ton train was pulled over the Third district the other day by one of the 1600 class of compound engines.

Joe. Ellison, who has been laying off for two months past on account of sickness in his family, returned to work Thursday.

A freight crew took out train No. 2 yesterday in order that the uniformed crew of that train might take out the Dr. Webb special.

Engine 1802 came out of the back-hop the fore part of the week where it had been receiving light repairs prior to going to the Fourth district.

A syndicate of investors have made a proposition to the Union Pacific to purchase all its land west of Nebraska. This holding consists of six thousand acres.

Engineer Reynolds, who has been laying off the past four months, went out on No. 6 Wednesday morning on the 1837; his first trip on a compound.

Sam Hooper, of the freight warehouse force, expects to go switching in the yards and will be succeeded by Ed Moore, who has been on the patrol force.

It is said that the laborers in the ballast gangs which will be put on about April 1st will consist of Greeks, Italians and Japanese. The latter will be shipped in from the west and the former will come from the east.

Henry McGahey, an old time North Platte boy, now firing out Rawlins, Wyo., who has been visiting friends in this city for the past week, left on No. 3 Wednesday night to resume his duties on the Sixth district.

They say that M. H. Kelly's efforts to pack ball-bearing boxes on one of the cars of the Webb special last evening were quite amusing. But Kelly is excusable; it is not often one sees a box of this nature.

The station of Elm Creek on the Union Pacific is twenty-eight years old and during that time but two agents have been stationed there. The first agent is now in business in the town, and the second is still doing business for the company.

Sound-Waves and Sound Receivers.

Lord Rayleigh, in discussing our ability to tell the direction from which sound proceeds, calls attention to an interesting difference between the eyes and the ears with regard to the size of the waves that strike them. The average wave-length of light is about one-tenth-thousandth of the diameter of the pupil of the eye. On the other hand, "the waves of sound issuing from a man's mouth," says Lord Rayleigh, "are about eight feet long, whereas the diameter of the passage of the ear is quite small, and could not well have been made a large multiple of eight feet." One consequence of the minuteness of light-waves in connection with the size of the eyes is that the lenses of the eyes are able to concentrate rays of light upon the retina with great efficiency.

Texas Flood Carried Away Casket.

Search for the casket containing the remains of Charles Coghlan has been abandoned at Galveston. The noted actor died there in November last year and for some unknown reason the metallic casket containing the body was still in Galveston when the terrible tidal wave swept over the place Sept. 8 last. The casket was swept from the receiving vault and is now believed to have been carried out to sea.

Spiders Ruin Telegraph Wires.

Small spiders play havoc with the telegraph wires in the Argentine Republic. The long cobwebs settle on the wires and as soon as dew or rain falls they are rendered to some extent a conductor and the effect is practically to stop the operation of some of the lines. The government has determined to connect Buenos Ayres and Rosario by an underground cable 150 miles long to obviate this difficulty.

Strikes A Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility" writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than any medicine I ever used. They have also kept my wife in excellent health for many years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c Satisfaction guaranteed by A. F. Streitz.

Geo. C. Granger, painter, paper hanger and decorator. Carriage and sign painting. Estimates cheerfully furnished. All work guaranteed. Inquire at Brooks house west Sixth street.

Forty-four Catekins for a Coat.

The order of the German government providing for the making of 10,000 fur-lined greatcoats and as many grooves and gaiters for the use of the troops has opened up a way to dispose of surplus cats, as the articles named are lined mostly with cat skins. Every greatcoat requires fourteen of the skins.

Prosperity in Kansas.

A Kansas man who was fined for vagrancy pulled out his book and wrote out a check for the amount of his fine and costs, and returned to his ranch vowing that he would do his future trading in a town where a man is not judged by the clothes he doesn't wear.—Denver Post.

Calling the B. F. Names.

"George!" she screamed, "my neck!" "What's the matter?" "There's a pillowcase!" "A what?" "A taper-killer—" "What in the world do you mean?" "Oh, dear!" she moaned, as she clutched him frantically. "A kitten-paller! You know, George! A paterkiller!" "Gee!" said George, with evident relief, and he proceeded to brush the future butterfly away.—Exchange
