

SUBSCRIPTION RATES. One Year, cash in advance, \$1.25 Six Months, cash in advance, 75 Cents

It is now Governor Savage, Senator Dietrich retiring from the chair on May 1st. The new governor is a man who will satisfactorily fill the position.

SENATOR DIETRICH says he was incorrectly reported in the matter of demanding the removal of J. W. Johnson from the Lincoln land office, but that he presented a copy of charges handed him by another.

By "firing" a few hired girls who were breaking china and carrying home groceries to the folks, King Edward has been able, says the Fremont Tribune, to reduce his living expenses three hundred thousand dollars a year.

ONE juror in the Callahan case admits that he believes the defendant was guilty and it is suspected that the other eleven were of the same opinion. The verdict, practically speaking, was to the effect that Cudahy is rich and that he ought to be made to pay.

WITH new oil fields in Wyoming, Utah, New Mexico, California and Louisiana, it looks as though nature had engaged in a conspiracy against the Standard Oil Company. The octopus is certainly having its hands full in limiting the production and keeping out competition.

THE highest rate of interest on government bonds, based on their market value is 1.96 per cent and the average is about 1.50 per cent. This shows a higher credit than any other country in the world, the lowest interest of foreign bonds based on market value never having been less than 2 per cent.

PRESIDENT MCKINLEY is now on his tour to the coast, and his reception in the south this week—where his trip takes him first—has been enthusiastic and gratifying. In his speeches he avoids partisan politics and calls attention to the unexampled prosperity of this great country.

REV. DR. RAINFORD of New York has caused much agitation in church circles by using the words "it is damned rot" when referring to the charge that the missionaries in China were responsible for the boxer insurrection. Several friends called on the Doctor the following day to have him deny that he said it, but he said that he had no denials to make.

DURING the last 110 years the center of population of the United States has moved westward more than 500 miles. When the first census was taken the center was at a point twenty-three miles east of Buffalo. It has moved westward at an average rate of five miles a year until now it is six miles southeast of Columbus, Ind. Its progress during the last decade was less than at any previous time. This was due largely to the collapse of the boom in the '80s. The prosperity of the west is now on a sound basis and an acceleration of the westward movement of the population center is to be expected.

Poor Boys in the Cabinet. A feature in the May Success is Mortimer A. Dowling's hunt for inspiration among the cabi-

net ministers of this administration. "Nothing," he writes, "proclaims the virility of this republic more emphatically, nor augurs more eloquently for the stability of its future, than a study of the history of President McKinley's advisers. Not one came from wealthy parents; not one ever knew the questionable luxury of eating the bread of idleness; not one but has painfully climbed, step by step, the ladder of fortune—some of them unaided by friends or relatives—until they now stand in the highest places, after the presidency, in the gift of the people.

But two of the cabinet officers received a college education before beginning life. Secretary Hay was graduated from Brown University in 1858, and Mr. Griggs from Lafayette college in 1868. All the rest received primary education at academies and public schools, and then struggled for the means to continue their education along higher planes.

The sketches of the lives of these men are illustrated by drawings, showing John Hay as a clerk to President Lincoln in the very room of the White house where he now sits as premier; Elihu Root, at eighteen, teaching a class in the Rome, New York, Academy; John W. Griggs as a law clerk in Paterson, N. J.; Ethan Allen Hitchcock as a clerk in the Hong Kong store of Olyphant & Company; Lyman S. Gage, at fifteen, as a beginner in a bank in Rome, N. Y.; Charles Emory Smith as a compositor in the office of the Albany, (N. Y.) Knickerbocker; John D. Long as a chore boy on a farm in Bucksfield, Me.; and James Wilson at twenty, working as a farmhand in Iowa.

FULLMAN ORDINARY SLEEPING CARS FOR TOURISTS are the most comfortable, commodious means of travel for large parties, intending settlers, home-seekers, and hunting parties.

These cars are run on the UNION PACIFIC daily from Nebraska and Kansas points to California and Oregon points, and are fitted up complete with mattresses, curtains, blankets, pillows, etc., requiring nothing to be furnished by the passengers. Uniformed porters in charge of the cars, are required to keep them in good order, and look after the wants and comforts of all passengers. The cars are new, of modern pattern, and are almost as convenient and comfortable as first-class Palace Sleepers. For full information call on or address JAS. B. SCANLAN, Agent.

Descendants of Chinese. The ancestors of the civilized natives of Formosa are immigrants from China, who brought with them the custom of paying religious respect and reverence to ideographs. These Formosans call any piece of paper containing writing by the dignified name of "sacred remains," and venerate it as some superstitious Japanese people venerate the cards symbolizing deities which are called "ofuda."

Scrofula Chicago THE OFFSPRING OF HEREDITARY BLOOD TAINT.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, but the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Seals, 115 Public Square, Nashville, Tenn., says: "Ten years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula. It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her health and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist at Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it." A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

Get Mother's Friend at the drug store, \$1.00 per bottle. THE BRADFIELD REGULATOR CO. ATLANTA, GA.

Color Effects on Silkworms. M. Camille Flammarion, the well-known astronomer, has been studying the effect of colored light on silkworms. White light yields the maximum production of silk. Next to white light the purple of the red end of the spectrum gives the best results. Blue rays increase the number of males and "warm" rays the number of eggs laid by females.—London Globe.

A Critical Man

is exacting as to his attire—its material, cut, pattern, fit and finish. We beg to advise that we cater to the man critical as to his tailoring. Certain of gratifying his taste for things sartorial, his praise will redound to our credit. We take equal pains with all and will suit you, not counting the trouble of successive "try ons" when necessary.

F. J. Broeker.
