Crushed by the Cars.

Guy Worthington, a man twenty-five years of age whose home is at Pleasantville, Iowa, was thrown beneath a train in the yards at this place yesterday forenoon, and had both legs so badly crushed by the wheels that amputation was necessary.

Worthington and a companion attempted to get on passenger train No. 6 as it pulled out of the depot but were driven off. They then walked to the crossing east of the warehouse and awaited a fruit train pulling out of the west yards. When the train reached the two men it was running at a rapid rate and Worthington's companion made an effort to get on but failed. Worthington then attempted to get on, but the train's pace was too rapid and he was thrown under the wheels passing over his left leg above the knee and his right leg at the ankle.

The injured man was picked up and Dr. McCabe hastily summoned who rendered all possible assistance at the time, and later Worthington was taken to Mrs. Pulver's home. Here a more minute examination was made, and it was found necessary to amputate both legs.

Worthington's parents, who are well to do, were at once notified of the accident, and some member of the family is expected to arrive here today.
