THE JEWELER,

The Semi-Weekly Tribune.

FRIDAY, MAY 10, 1901.

C. F. Scharmann this morning received his commission as an aid on the staff of Governor Savage with the rank of Colonel.

The farmers are so busy planting corn these days that they do not have time to come to town. For this reason business has been a little quiet during the past week.

The cattle which John Burke & Co. had placed with the Coker Bros. at Sutherland were shipped to South Omaha this week.

County Clerk Holtry recently lost several head of cattle from black-leg, but since then his herd has been vaccinated and no future losses from this disease are expected to occur.

S. K. Ross and family left yesterday for Rawlins, Wyo., to again take up their residence. They are very estimable people and many regretted to have them leave.

S. C. Mecomber leaves Sunday morning for St. Paul, Minn., to attend the general convention of the Order of Railway Conductors. He will be absent two or three weeks.

Small fruit in the valley promises to be more plentiful this season than ever before, and it is predicted that there will be nearly enough strawberries and raspberries to supply the local demand.

Manager Lloyd has booked Ten Nights in a Bar-room for the evening of May 31st. The company puts forth the claim that it is an excellent one and will give a very satisfactory performance.

August Hazenkamp, Miss Gertie Baker, Miss Laura Irish and two or three others connected with the local Christian Endeavor Society will go to Paxton this afternoon to attend a district meeting of the society which convenes this evening and will be in session tomorrow.

Always something new and attractive at Doolittle's. Watch for reading notices next week.

Mr. and Mrs. Geo. R. Hammond left for the east Wednesday morning. Mrs. Hammond went through to Dayton, Ohio, while Mr. Hammond will attend the O. R. C. convention at St. Paul. He will then go to Dayton and from there to Virginia, where he will make an investigation of certain localities with a possible view of locating.

Wm. Chambers, Jr., left Wednesday night for a visit with an uncle at West Point, Neb.

Mike McLaughlin came down from Cheyenne this morning to attend the funeral of Walter Johnson.

Mrs. Carrie Struthers of Sidney came down last night and will visit relatives for two or three weeks.

Major Wilcox, of Omaha, was elected department commander of the G. A. R. at Plattsmouth yesterday, and C. F. Steele, of Fairbury, senior vice commander.

C. F. Scharmann returned last evening from a business trip in the east part of the state. He brought up a carload of cattle which he will place on his farm in the valley.

Fred Waltemath, who has been spending the past six months in Germany and other European countries, has arrived in New York and will reach home in a few days.

John Neary announced this morning that the weather in July will be such as to require heating stoves to make rooms comfortable. Those who bank on Mr. Neary's predictions will probably not take down their heating stoves.

Doolittle is agent for the Monarch Bicycle. Don't purchase a wheel till you have thoroughly examined the good points of the Monarch.

A number of North Platte people are already making arrangements to visit the exposition at Buffalo, and at the same time visit their old homes in the east. Four out of a bunch of six railroad men said this morning that they would go to Buffalo in August or September.

Stores stored. Gasoline stoves repaired and enameled. Good second hand gasoline stoves for sale cheap. Western Stove Repair Works, two doors east of First National Bank.

Messrs. Elder and Evans returned last night from Plattsmouth where they attended the G. A. R. encampment. They report the meeting an unusually pleasant and profitable one. Commander-in-Chief Rousser of Missouri, was present and made two fine addresses.

H. A. Kepner, of Arcanum, Ohio, an old friend of W. C. Ritter, has been the guest of the latter for several days while enroute to Denver. Mr. Kepner is suffering from injuries received by falling from a street car two years ago, and goes to Denver in hopes that the change of climate will do him good.

A meeting of the Union Pacific base ball club will probably be held this evening, and a new manager elected. This position has been tendered to R. L. Graves and it is understood that he will accept it. A temporary captain, to succeed Joe Werber while he is absent from the city, will also be named. Arrangements will be made to get the team on the diamond during the evening hours and get down to good hard practice. Owing to the fact that Kearney and Grand Island have not yet completed their organization, no games with these teams have yet been scheduled.

**Walker Will Put in the Plant.**  
Lester Walker, Jr., informed us this morning that he has decided to put in an electric light plant under the franchise granted him some time ago by the city council and that active work will begin the early part of June.

An agent for the Western Electrical company will be here next week to confer with Mr. Walker in regard to the machinery and necessary supplies, and an order for the material will be placed at that time.

Although Mr. Walker believes that the present council is opposed to making a contract with him for street lights, he proposes to put in the plant, demonstrate its efficiency and rely on future councils seeing the wisdom of contracting for as many street lights as the city can afford to run, in the meantime deriving his revenue from the incandescent lights taken by individuals.

**WANTED**—At once, a good strong girl to work in the Laundry. Apply at North Platte Steam Laundry.

Judge Hoagland spent several days in Omaha and Lincoln this week on business before the federal and state courts.

Chicago forecast for North Platte and vicinity. Fair and cooler with frost tonight; Saturday fair. The maximum temperature yesterday was 84, one year ago it was 74.

It is reported on the streets today that H. L. Walsh, late of this city, had lost a leg a few days ago in an accident on the Gulf road, where he is firing. No one could be found, however who could verify the report.

John E. Evans is wearing today a very handsome G. A. R. badge which was presented to him at Plattsmouth this week by reason of him being a past department commander. The solid part of the badge is of gold, set with seven diamonds and two rubies. It is a trophy of which Mr. Evans has just reason to feel proud.

H. S. White retires from the mayor's chair with the satisfaction of knowing that during his administration the floating indebtedness of the city was largely reduced—in fact it has practically been wiped out. And this, too, in the face of an extra expense of \$1,500 brought about by the small-pox cases. The city is now in excellent financial condition, and we are confident that the present administration will conduct the affairs of the city in that economical manner that marked the administrations of Messrs. Bratt and White.

One man in North Platte offers to subscribe one hundred dollars for the right kind of a Fourth of July celebration. If a dozen more men of like generosity can be found it will be no trouble to have a celebration that will attract people all the way from Grand Island on the east to Sidney on the west.
