E. R. Ripley said this morning that this week will about wind up his strawberry crop. The berries being brought in this week are not quite so large as those earlier in the season, yet they are very nice.

The condition of Conductor Carl Pierce is such as to exclude much hope of him ever regaining full use of his mental faculties. A Mr. Saunders, an old time passenger conductor, has been employed to wait upon Mr. Pierce and keep watch over him.

We have safe investments bearing good rates of interest if you want to invest your idle money call and see us.

John Bratt & Co.

Why do we sell stationery so cheap? Because our trade is increasing, that's why. Doolittle's is a Stationary Store and people know that is where you will find the assortment. The more goods we can sell you the cheaper we can sell them.

Alvin Pool returned Sunday night from Chicago, where during the past year he received instruction on the violins. We learn that Mr. Pool made rapid progress in his work, but in order to make a finished violinist will take further instructions next fall and winter.

E. R. Ripley has been rather unfortunate in having an attack of rheumatism for two weeks past that has caused him much suffering. Coming right in the busy berry and vegetable season he has been compelled to work when not in a condition to do so.

The Kearney Hub of last evening published the following: The Hub is informed that the North Platte has a crack battery coming from Salt Lake, and other information is to the effect that the man in the box is none other than John Redmond. When Redmond and Salene meet it will be like "Greek meets Greek."

Death of E. J. Newton.

Earl J. Newton died at the family residence in this city last night at 10:30 of consumption. This insidious disease first developed in a light form six or eight years ago and to stay its ravages, Mr. Newton moved to Santa Fe, N. M., where he remained three years. His residence there seemed to have the desired effect for a time, but later he was troubled more or less with slight hemorrhages. Last August he moved to Brady and opened a drug store. During the latter part of the winter he had an attack of pneumonia which greatly aggravated the pulmonary trouble and after that not much hope was entertained of his recovery. A week ago he was brought to this city with the hope that better facilities for nursing and medical attendance would prolong his life, but though every possible attention was given him he was unable to withstand the inroad made upon his lungs.

The deceased came to North Platte in 1889 from Red Cloud and entered the employ of A. F. Strietz and later engaged in the book and stationery business, leaving here in 1893. During his residence here he made many friends who deeply regret his death. He was thirty-four years of age and leaves a wife and two children. He was a charter member of the local lodge of Red Men, in which he carried a policy of \$1,000, also holding policies in the Aetna and Equitable insurance companies of \$2,000 each.

The funeral will be held from the family residence Thursday forenoon at ten o'clock. To the devoted wife and fatherless children the sympathies of our people are extended.

We will close our Store at 9 A. M. July 4th, and will not open until 7:30 A. M. July 5th.
WILCOX DEPARTMENT STORE.

Will Soon Have Lights.

After many years of patient waiting North Platte will soon have a system of electric lighting. There is no doubt of this, for the construction material has been ordered and will be on the grounds not later than July 15th. The franchise granted by the city council to Lester Walker, Jr., has been taken up by the North Platte Electric Light, Heat and Power Co., of which Mr. Walker is the manager. Mr. Walker began taking applications for lights yesterday and met with flattering success. Included in the applications yesterday were two arc lights and about one hundred incandescent lights for the Pacific Hotel; also incandescent lights for each room in The Farrington. In addition to these several merchants placed orders for light, and there is no question but applications will be of such number as to insure the company a paying business from the start.

We are glad indeed that the matter of having a system of lights has been definitely settled, and that it will so soon be in operation.

The boy baby which arrived at the home of Mr. and Mrs. F. R. Ginn Saturday has made Fred a very happy man. Contrary to reports, he believes that a pair is better than one of each kind.

Doolittle will have been in business in North Platte just one year on the Fourth of July, and will celebrate by keeping the largest and most complete stock of Fourth of July goods in the city.

Boy Badly Injured.

The twelve year old son of Ben Dawes was caught in the revolving shaft at the U. P. ice house last evening and sustained two fractures of the left arm and other severe injuries. The boy had gone to the ice house to gather up small pieces of ice and had with him a gunny sack. He amused himself by striking the sack against the shaft until finally the sack wrapped around the shaft and drew him with it. The boy was whirled around a hundred or more times before the clutch could be thrown off at the engine house, and had it not been for an employe catching his legs as he revolved and thus breaking the force, his feet would probably have been pounded to jelly against the platform. The shaft was making about ninety revolutions a minute.
