Under the new relations of royalty have been kept too dark, since the house of Hanover came to England. All the queens consort hoarded except the two Carolines. The first Caroline spent with good judgment and generosity. The second Caroline was profuse in spending on her adopted son and her favorite Italian courier and his children. But Augusta, princess of Wales, who did without servants, hoarded, Queen Charlotte hoarded, and received presents from \$1,500,000, as the exports to "shady "nabobs." Queen Adelaide gave away a good deal in charity, but she also hoarded out of her astonishingly large civil list allowance. Queen Charlotte winked at the amours of the prince regent with ladies of rank in the hope that he would give her jewels. She never chilled Lady Jersey or Lady Hertford at any of her receptions. This policy had the effect of swelling her treasury. She gave away a great deal of jewelry to her children. The her unmarried daughters.

SAVE THE ORCHARD.

Constant Spraying the Method Recom mended to Kill Parasites.

This has been an ideal season for the development of the fungus enemies of the orchard and garden Moisture and "mugginess," combined with occasional coolish temperatures, produce ideal conditions for the growth of vegetable parasites. Fine weather it is for apple scab, plum rot, grape mildew and the like. Rain almost every day! The experiment station man in Ithaca says spray to prevent the growth of these diseases. Cultivated plants are protected from fungus enemies by covering them up with a film of blue stone and lime in combination. This is effective as long as it stays on. The question then arises is advantages besides comfort. there any good in spraying during this showery weather? Experience and com-

ing rain certainly kills some spores and the plants will be protected to that extent. This matter is discussed somewhat fully in "Lessons on Orcharding," in the Farmers' Reading Course, Cornell University, which are free to

Rowdy Baseba'l Helping Golf.

A peculiar circumstance has contributed to golf's popularity and that is the rowdyism that brought baseball into disrepute. There is no contest that equals the great American game. It has the snap, the science, the skill quick appreciation and nervous demands of the average American. But Americans do not like profaulty, and the better classes of them are opposed novel excursion. Bunks will be fitted by the bad manners and worse lanup along the sides and they will live in guage of hired ruffians. Turned from men have sought other recreation, and have found it in golf. Let His Crops Rot.

L. N. Calvary was found dead of heart disease in his home near Fayetteville, N. C., recently. His age was 70. He lived alone. His body was found sitting in a chair. He was the most eccentric man in all North Carolina. He came here thirteen years ago from Newburgh, N. Y., bought 100 acres, started a vineyard, built a large house, which he handsomely furnished and here he lived alone. He worked on his vineyard and truck garden steadily, but never made a shipment, Each year's harvest was allowed to rot. He worked ten hours a day, timing himself as if working for hire. He recently returned from New York where he had his bank account. In his house is much fine silverware. He had \$300 on his person when found. He sold a twelve-acre vineyard on the Hudson River for \$12,000.

Great Jack Rabbit Chase.

C. W. Sample of Kingman, Kan. is engineering a jack rabbit chase to take place after harvest. The county commissioners having failed to take up his scheme for a bounty on jack rabbit scalps he has decided to hunt the pest down and have the dogs do the rest. He is organizing the townships into companies and on a certain day the people are expected to turn out with their dogs and exterminate the entire jack rabbit population of the county. If the plan works out at Kingman it will be tried in other counties which are infested with rabbits .- Topeka Capital.
