Electric Light Ordinance Passed.

At the adjourned meeting of the city council Wednesday night the ordinance granting a six year electric light franchise to Lester Walker, Jr., or his assigns, was unanimously passed. This ordinance embraces the proposition submitted to the council several months ago by Mr. Walker with the exception of a few minor changes.

Messrs. Henry and Brown of Denver, who are backing Mr. Walker, spent several days in town the early part of the week, and while here they and Mr. Walker selected and purchased a site for the plant—the lots in the Third ward formerly occupied by the old electric light building. Mr. Walker tells us that the engines and boilers for the plant have already been purchased and that as soon as a spur can be laid to the building location work on the plant will begin. Under the new ordinance the time for the completion of the lighting system has been extended to November 1st, and Mr. Walker is confident that the plant will be fully in operation by that time. The Denver gentlemen will return to town next week and the preliminary work of installing the plant will begin.

THE TRIBUNE is glad that the lighting question has at last been definitely settled and that we are to have a system that promises to be a creditable and satisfactory one.

Yesterday's Kearney Hub contained a Brown roast of Empire Oumette and several others relative to Wednesday's game of ball, and terms the action of the umpire a bald steal. Of course the Kearney people are sore; their team is a good one and their success has caused a good many swelled heads in the Midway City. To be twice defeated by North Platte made the boys feel sore, very sore hence the roast by Editor Brown. This writer denies that the game was stolen, insists that the decision of the umpire was fair and declares that had it not been for the action of the impetuous and mouthy manager of the Kearney team the decision of the umpire would not have been questioned by the Kearney players. During both games this manager rushed into the diamond several times and declared if certain decisions were not reversed the game would be called. He, however, could not bluff the umpire, hence his rage.
