Illinois Central AN INNOVATION.

Elegant New Dining-Parlor Cars Between Chicago and Omaha on the Fast Mail.

These combination cars, which have been especially fitted up for service between Chicago and Omaha at the company's shops, are run west bound from Chicago on Fast Mail, train No. 5, and east bound from Omaha and Council Bluffs on the Chicago Express, train No. 4. They are artistic and handsome in design, and convenient in arrangement. They have all the features of a regular dining car and of a Pullman parlor car, the two being in separate compartments, and entirely independent one from the other. The dining compartment has a large kitchen and an uncramped seating capacity of fourteen at the dining tables. The parlor compartment is handsomely decorated, and is equipped with ten heavily upholstered revolving armchairs. These chairs are particularly comfortable, being of a new and special shape designed for these cars. As these trains make the trip across Iowa for the most part by daylight, this innovation in car equipment, in addition to its convenience for through passengers, is especially advantageous for Omaha and Chicago passengers to or from local points.
