Will Run Through To Cheyenne.

George W. Vroman received a letter from General Manager Dickenson this morning stating that after Sept. 1st freight engine and train crews will run through from North Platte to Cheyenne, a distance of 225 miles. We understand, however, that it is stipulated that if it is found the firemen cannot stand the trip through they can change at Sidney. The engineers, conductors and brakemen will run through without change.

This move, it is believed, is largely experimental and local railroad men, generally say that it will not prove successful. The schedule of the fastest freight trains between North Platte and Cheyenne is twelve hours, while the slower trains cover the distance in from eighteen to thirty hours, governed largely by the time spent on side-tracks. It is argued, and apparently correctly, that engine crews, especially firemen, cannot stand so many consecutive hours of labor. The labor devolving on the train crews may be somewhat lighter than on the engine crews, but nevertheless it will be such as only the most robust constitution can stand.

This new order has already created considerable dissatisfaction among the roadmen.

Fruit traffic over the Union Pacific has fallen off considerably during the past few days. This is said to be due to the early crop having all been marketed and the late crop not yet ready for shipment.

Do you know a bargain when you see one? Look at that \$25.00 Monarch Bicycle in Doolittle's window for \$22.50. It is a Monarch that Tom Cooper broke the world's record with this year. Doolittle has a Ladies Wheel at the same price.

George Eves says certain parties have been taking his horses out of the pasture at night recently and using clubs over the heads of the animals and otherwise mistreating them. Mr. Eves thinks he has the guilty parties located and is laying for them.

The sidewalk ordinance recently passed by the council has created considerable talk, and there seems to be an even break as to opinion on the fairness and justice of its provisions. Railroad Notes.

Fireman Dick Cox left last night for a week's visit in Ogden.

Supt. John Langtree is in town today and this morning was looking for some laborers to assist in making repairs at the coal schutes.

Train No. 1 collided with two light freight engines west of Rock Springs Saturday morning. A dozen or more passengers were injured but none seriously. The three engines were badly wrecked.

We were told while in Cheyenne Saturday that a company employe armed with a kodak hung around the saloons and took snap-shots of U. P. employes who entered saloons and drank at the bar. This story is given for what it is worth.

Conductor Will Keen running between North Platte and Omaha and well known here, accompanied by his wife, leaves tomorrow morning on No. 5 for a two months trip to the Pacific coast. They will return by way of the Northern Pacific.

It is said that there is considerable work ahead for the grievance committees of the several orders on the Union Pacific system. The employes are not saying much, but the occasional remarks dropped indicate future conferences with the head officials at Omaha.

Rumors of resignations of certain high officials of the Union Pacific are again current. A few days ago we were shown a letter from a U. P. official who said that no official knows when he goes to bed at night whether he will be an official when he awakes in the morning.

The Omaha Bee is authority for the statement that the Union Pacific shops at Cheyenne are to be enlarged at once by building additional machine and car shops. They will be second only to the shops at Omaha. The present force of 700 men is to be increased to 1,500 as rapidly as they can be secured and put to work. This action is made necessary by the closing of a number of the smaller shops on the Wyoming division.

The San Francisco Call in last Sunday's issue says the resignation of Chas. M. Hayes of the Southern Pacific is an assured fact and that his successor will be S. M. Felton, president of the Chicago & Alton. The Call further states that the selection Felton means without a doubt that the Union Pacific has absorbed the California system and the policy of the Southern Pacific will be directed hereafter from headquarters of the Union Pacific lines at Omaha.

R. L. Grayes has resigned his position as chief clerk in Foreman Stubbs' office and will be succeeded by Chas. Hendy. Mr. Grayes will engage in business in town. Mr. Grayes held the position he resigned for about ten years, during which time he was in constant association with the shop employes and engine crews and by them has been held in high esteem. Charley Hendy who succeeds Mr. Grayes has been time-keeper, and is a very bright and active young man and can well fill the position creditably. Mr. Hendy is succeeded as time-keeper by J. H. Barnhart, who for several years past has been time-keeper and clerk at Sidney.
