THERE are a few fair-minded fusion newspapers in Nebraska and among them is the Columbus Telegram, which commends the republican state convention for demanding that Joe Barley be remanded to the penitentiary.

THE corn crop is estimated by the Cincinnati Price Current at 1,400,000,000 bushels; by the Orange Judd Farmer at 1,100,- summer routes of travel. It is done York Journal of Commerce as bushels, and by the Drover's Journal at 1,800,000,000 bushels. If the reader does not see what he wants here, he can make his own estimate.

THE demand of the republican state platform for the monthly were generally spared by the Greeks public statements by custodians and Romans in their hostile operaof public funds is a direct move rusalem. Titus made strenuous efforts in favor of better government to prevent the destruction of the temand placing a check on the ten-dency toward defalcations. This ought not to be a political issue. The justice and propriety of the demand are so palpable that they must be conceded by all men .-Kearney Hub.

Any place where a boy has no business isla dangerous place for him, be it on the street, in the store, or elsewhere. A boy that is all right prefers his home, friends, books or newspapers to the class found on the streets. Business men look upon the boy loafers as the "dead beats" of the future. Boys, if you adopt the right habits while boys you will in manhood be useful to the world, will be a source of comfort to your parents and friends and then you will have the satisfaction of looking upon a well spent life."

MR. BRYAN is having unusually hard luck this year. The state conventions are treating him most cruelly in declining to indorse his free silver views. The blow in Ohio was particularly severe. The Virginians let him down

The Semi - Weekly Tribune with more politeness, but they used language sufficiently firm not to be misunderstood. The course of events is such that more of this opposition may be expected, especially in south, where many of the people are sorry for the vote they cast in 1896. Mr. Bryan's friends in Iowa made a desperate effort on Wednesday to keep him from being offended, and after a struggle the Kansas City platform was indorsed. Iowa being hopelessly republican, the Nebraska man can take what comfort he can find out of the transactions of the convention in that state.—

But this is to be a part of the midway and nothing can be too freakish for that part of the exposition.

Big Tips Demoralize Walters. There is one form of wealth which is distinctly reprehensible, the kind that distributes big tips along the

The man who has made a strike wants to show off and his way of doing it is with five-dollar gold more likely to reach 1,600,000,000 pieces, or munificence of that common sort. The extravagance simply demoralizes waiters. It is no good to the hotels or restaurants, and it makes everybody else who has not five-dollar gratuities to distribute less comfortable.-Philadelphia Times.

# AN INNOVATION.

Elegant New Dining-Parlor Cars Eetween Chicago and Omaha on the Fast Mail.

These combination cars, which have These combination cars, which have been especially fitted up for service between Chicago and Omaha at the company's shops, are run west bound from Chicago on Fast Mail, train No. 5, and east bound from Omaha and Council Bluffs on the Chicago Express, train No 4. They are artistic and handsome in design, and convenient in arrangement. They have all the features of a regular dining car and of a Pullman parlor car, the two being in separate compartments. A fruit dealer in Paris advertised his willingness to give a prize of five francs for the biggest apple sent to him. In a fortnight he had received enough big apples to stock his store for a season, and, like an honest man, he awarded five francs for the biggest one. The others didn't cost him a sou, and the free advertising brought to him a rush of business.

dinning car and of a Pullman parlor car, the two being in separate compartments, and entirely independent one from the other. The dining compartment has a large kitchen and an uncramped seating capacity of fourteen at the dining tables. The parlor compartment is bandsomely decorated, and is equipped with ten heavily upholstered revolving armchairs. These chairs are particularly comfortable, being of a new and special shape designed for these cars. As these trains make the trip across Iowa for the most part by daylight, this innovation in car equipment, in addition innovation in car equipment, in addition to its convenience for through passengers, is especially advantageous for Omaha and Chicago passengers to or
