Frank Armstrong, who was hit on the head several months ago with a pitchfork, a tine of which penetrated the skull, died last night at the home of his sister Mrs. Colorel Owens. Following the accident the unfortunate man was taken to an Omaha hospital for treatment, and though kept there for several weeks, nothing could be done for him. A short time ago he was brought back to this city and since then he has been gradually sinking. The remains will be shipped tonight to Stanberry, Mo., for interment. A funeral service will be held at the Owens residence at 6:30 this evening.

After serving about two-thirds of his sentence fine in jail the canvasser for the Des Moines house was released from custody. The ordinance under which the canvasser was arrested and fined has been found to be invalid by reason of certain provisions of the inter-state commerce law.

The marshal and street commissioner are making a tour of the city today ascertaining how many wooden sidewalks which were condemned have been replaced by permanent walks. Up to noon they had not found a property owner who had complied with the ordinance. It therefore follows that when these facts are reported to the council this evening, there will be considerable discussion over the sidewalk question.

Freight engineers who have so far made through runs to Cheyenne say the trip is a hard one and unless given plenty of rest at both ends will not be able to stand the work. They claim that they need at least twelve hours rest at Cheyenne, and it is understood that it is the intention of the company to give the engineers at least this number of hours' rest at that point. Coming through Sidney a very brief stop is made to change firemen.

A young man of this city advertised in Sunday's Bee for a young lady correspondent, and it is ten to one that he desires to open up such correspondence with a view to securing a wife. But the young man is making a mistake. There are a number of the nicest girls the sun shines on right here in North Platte who are pining for the affections of some "steady" young man twenty seven years of age, and he can save lots of postage by cultivating the acquaintance of the young ladies in his own town. Stand up for the North Platte girls.

Climate of Western Australia.

The climate of Western Australia is said to be most agreeable, for even if the midday sun is hot, a cool breeze generally springs up toward evening, making the air almost chilly at night.

Lights for Westminster Abbey.

Westminster Abbey is to be lighted by electricity as soon as a plant can be erected. This, it is said, is chiefly because the continual use of gas has produced a chemical disintegration of the limestone walls, which resulted lately in the fall of several shafts.

They Endured.

The Roman roads were built with a substratum of heavy blocks of the stone most abundant in the neighborhood, covered with a layer of smaller stones or gravel. They were highest in the middle, with a trench on each side to carry off the water, and no trees or shrubs were allowed to grow within 100 paces of either hand.

DONNA'S PLAN.

She Wanted More Brothers and Set About Getting Them.

Little Donna is four and a half years old. She is the apple of the eye of Dr. Couch of Nyack, N. Y., who is blessed with a family of bright children—a boy and a quartet of younger sisters. The boy is, as a matter of course, very popular with the little ones, and is an especial favorite of self-reliant Donna. This marked deficiency of brothers in the family displeased her. She had sent frequent letters to the all-powerful Santa Claus to remedy the defect, and even shouted up the dining room chimney to him to "send us some brothers," but tongue and pen proved alike ineffective, and Donna had become disgusted. She had seen chickens emerge from egg shells in New York city department stores. The grocer brought a dozen eggs and placed them on the kitchen table. Donna spied them, and acted instantly. The eggs were soon disappearing and Donna was "very busy." Had the grocer cheated in the count? It seemed plausible until a certain little girl was caught as they say, "red-handed," with a big egg in each chubby hand, marching toward the staircase.

"What are you doing with those eggs?" sternly demanded her mamma. "I'm puttin' 'em in brother's bed," was the reply. "I'm going to hatch out some brothers."—Success.

Pyramid in Cheops.
The highest pyramid is that at Cheops, 486½ feet. It is computed that the weight of the masonry in this pyramid would exceed 6,316,000 tons. It covers thirteen acres of ground.

In Due Form.
"Everything portended a storm," wrote the society editor, who had been detailed to do the introduction to the account of the tornado. "The heavens were arrayed in the conventional black," etc.—Chicago Tribune.

An Egyptian Reed.
The Egyptian reed, which was used for making the pens found in Egyptian tombs, is a hard variety growing to about the diameter of an ordinary goose quill. Pens made from it are said to last for a day or two and do excellent work.

Killarney Eagles All Killed.
The famous eagles which used to haunt the lakes of Killarney, making their nest in the "Eagle's Nest" Mountains, have been exterminated within the past three years. They were exceedingly picturesque, and objects of great interest to visitors. Their depredations, however, amongst the grouse, and their capture of lambs and kids from the farms all along the countryside, rendered it absolutely necessary to get rid of them, and the last of the birds has been shot.

Every woman in the country ought to know about

Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy.

A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it." A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours." Get Mother's Friend at the drug store, \$1.00 per bottle. THE BRADFIELD REGULATOR CO. ATLANTA, GA. Write for our free illustrated book, "BEFORE BABY IS BORN."
