Resolved, By Platte Valley Harbor, No. 24, American Order of Protection, in order to show our sympathy with and for Lady Mate McKeown and bereaved ones who are now left to brave the winds and waves of the voyage of life alone, we extend to Lady McKeown and sorrowing relatives, as a Harbor, our deepest sympathy. May the darkness of the cloud that now hovers over them soon break into light and when their life's voyage shall end, may their boat find safe anchorage on the peaceful shores of God's great harbor on the shores beyond.

Resolved, That a copy of these resolutions be spread on the records of this Harbor, and a copy sent to Lady Mate McKeown.

Two Expensive Departments.

The two most expensive departments in the New York city government are those of education and police. The department of education costs nearly \$19,000,000 a year and the department of police nearly \$12,000,000. But there are 11,700 employees of the department of education and 7,710 of the department of police, and thus per man it costs more to police the city than to educate its children. The average police salary is higher than the average teacher's salary.

A Reason for Real Taps.

According to a Vienna correspondent, a fire recently broke out at Hermannsreuth, an Austrian village near the Bavarian frontier. A Bavarian fire brigade, which was stationed only three miles away, hastened to the rescue, but the Austrian custom house authorities refused to allow the fire engines to pass the frontier before the usual tax on imported machinery was paid. The Bavarian firemen naturally turned back, and half the village was burnt down before the nearest Austrian fire brigade was on the scene.

Gown.

The Comtesse de Castellane wore an amazing costume the other day at the salon. Her dress was of periwinkle blue and it had decided paniers on the hips and a straight skirt falling on very high-heeled shoes, so high, indeed, that the coquetish came a be- quille in tortoise shell, which she carried in her hand, looked absolutely necessary to enable her to stand and walk. Her head dress was a tricorne, made entirely of periwinkles and foliage.

Professional Story-Tellers.

Professional story-tellers roam from house to house in Japan, to spin their yarns. In the city of Tokio there are about 600 of these professional romancers. Their pay averages 20 cents an hour. When the story-teller discovers that his romances are becoming dull from frequent repetition he moves into a new district.

Value of Horses in England.
