UNDERWEAR

Why is it? That we sell more underwear than any two firms in North Platte. The reason is that we always see how good a garment we can get to sell for a price instead of seeing how little we can pay for one and get the same price out of it. There is difference in even 25 cent underwear. We pay more for an article to sell for a price than any firm in this city. That is why our goods at the same price are always the best We are showing the truth of this statement to more people every day we are in business. Are you one of those that are still willfully blind to your own interests.
