PRESIDENT ROOSEVELT bas given assurance that he will visit the west next summer and make a personal study of the arid land sections with a view of making recommendations for their reclamation. Of course be will stop in North Platte for a day.

CUSTER COUNTY, which was once the banner populist county not only in Nebraska but in the whole United States, thrued over a new leaf last Tuesday and gave a majority of 107 for Sedgwick, republican candidate for supreme judge. But this was not all; several of the republican candidates for county offices were elected. Five and six years ago the populists had over one thousand majority in Custer county.

THE Kansas City Star (ind.) is elections held last Tuesday, none will have so great an effect on national politics as the election in Nebraska, home of William J. canvass that he made to keep the state in line for the fusionists. "The significance of the Nebraska election" says the Star, "is that the influence of Bryan has been weakened, and in the same degree the prospects of true democracy have been brightened." -Kearney Hub.

THE wild republican typhoon which swept over all the country last Tuesday left ruin and death in its track. With one lone exception, it found no barrier able to stand against its fury. The strong tower of the Tammany tigers was crushed like an egg shell. Not a democratic house was left standing in all Iowa, while in our own Nebraska everything went to the devil from Brownville to Broken Bow, save only Platte county, where the fury of the winds were checked and broken by a democratic rock as strong as Gibraltar. When looking for crumbs of comfort the democracy of the nation may cast an eye on Platte county in hope and confidence. Hollenbeck carries the county by near- HANS ly 1,000 majority, and the court house will be filled for two years with a corps of Missouri democrats.-Columbus Telegram.

The Agriculteral Department at Washington has just issued its estimate of the year's corn crop, showing a total yield for all states ot 1,250,597,000 bushels. Of this the statement shows that Nebrasnotwithstanding the dry of the opinion that of all the state weather which prevailed during July, will furnish 103,367,000 bushels or more than one-tenth of the entire crop. This is interesting as showing the wonderful recuperative properties of Nebraska soil. There Bryan, especially after the futile is probably no other state in the Union which would make such a magnificent showing. Nebraska is a grand state and is rapidly increasing in wealth and population. -Keeseville (N. Y.) Republican,
