BLACKLEG IN CATTLE

is prevented by vaccination before the germ of the disease has entered the system. The success of vaccination depends upon proper dosage. Too large a dose will produce the disease while too small a dose will not render the animal immune. This problem is solved by Parke, Davis & Co. in their new vaccine in pill form which is injected through the skin. No mixing, filtering or time wasted and you don't have to spend a fortune to vaccinate your cattle. P. D. Co. book, "Blackleg and its Treatment," free

Railroad Business at Maxwell.

During the year 1901 there were received at Maxwell sixty-three cars of merchandise as follows: Corn 1, feed 1, salt 1, flour 2, lumber 9, coal 12, cattle 33, other goods 4.

The shipments for the same period in carload lots were as follows: Rye 2, wheat 2, merchandise 3, sheep 3, horses and mules 13, hogs 18, sugar beets 41, cattle 48, hay 507; total number of cars 637.

This volume of business will no doubt be an agreeable surprise to most people, this writer confesses that it is to him.

A Stranger in a Strange Land.

The Denver Republican of Jan. 6th says: The most admirable feature of "A Stranger in a Strange Land," which was presented at the Tabor Grand last evening, is that the play possesses a somewhat original idea.

The idea as presented in ordinary English and without any picturesque embellishments, is that an ordinary family of sober and respectable Britons is so ignorant regarding the geography and civilization of America that a scapegrace relative can impose upon a rich aunt and make her believe that he owns a large cattle ranch in Buffalo and that each morning he drives his cattle across the river to graze in Nebraska.

From the aunt he obtains remittances under the pretense that he needs money to keep his ranch running and when he returns to England he takes with him an Indian as living proof that he has been in America. Several mendacious friends of the young man, who are anxious to assist him in the deception, bring in burlesque Indians and three acts are required to straighten matters out. This company will be at Lloyd's opera house tomorrow evening, Jan. 15th.

Mrs. Kate Sullivan has been on the sick list lately.

The ladies aid society will give an oyster supper in the hall at Hershey tomorrow evening. Everybody invited.

Seeberger & Co. will ship a car of hogs west from North Platte today that they purchased in that vicinity.

About 275 cars of baled hay have been shipped from Hershey and Nichols from June, 1901, up to the present time, at prices ranging from \$6.00 to \$8.25 per ton.

Geo. Edmiston has brought his herd of cattle from the Birdwood country down into the valley where he is feeding them on alfalfa purchased from Seeberger & Co.

It is said that Chas. McAllister has the finest herd of coming two year old steers in the valley. They are as fat as butter caused by feeding them alfalfa hay.

Good Cheer.
Have you had a kindness shown
Pass it on.
'Twas not given for you alone
Pass it on.
Let it travel down the years,
Let it wipe another's tears,
Till in heaven the deed appears,
Pass it on.

All letters, packages or inquiries concerning Sunshine work should be addressed to Mrs. Anna E. Moore, Myrtle, Neb., and notices for publication should reach us not later than Wednesday.

A sunshine club has been organized in North Platte with Mrs. Mary H. Elder as president.

Miss Celia Busing of Alexandria has been appointed president of a branch at Alexandria.

The Sunny Hour branch of Tecumseh, composed of the pupils of the four lower rooms of the high school, contributed a little over four dollars to convey a remembrance to Cecil Edwards a member of the branch, who has been ill a long time. It was a very graceful act and carried with it to the sick room a token of sympathy and good cheer which cannot be measured in dollars and cents.

The Arborville branch, Mrs. Jennie Wilcox president, gave a pie social Dec. 12.

During the last year the Myrtle branch realized from entertainments and contributions a little over thirty dollars. Mrs. Anna E. Moore, president, who is also a member of the board of managers of the International Sunshine Society, realized the necessity of funds to meet the general expenses at New York City, and suggested that a portion from each entertainment be sent to New York. The members were equally glad to divide, both with general headquarters and the state. The remaining portion was utilized in mailing out good cheer. The branch has a membership of fifty-nine. At the first regular meeting of the year, Jan. 7, eight new members were added, and those present enjoyed an oyster supper. The next meeting will be held at the home of the president Feb. 6.

The following letter is from a former North Platte sunshiner.
