Six Months, cash in advance, .75 Cents

THE men who stood up for D. E. Thompson in his senatorial fight seem to be "in it" in receiving federal appointments.

THE Lincoln News tells an interesting story about Bartley and the missing state funds to the effect that Bartley will seek to recover a large portion of the money with the purpose in view of returning it to the state treasury.

THE Iowa Homestead says: We wonder to how many readers it occurs to think of the importance of the United States industry in proportion to its population.

THE Fremont Tribune states that persons interested in having a denial of certain important facts concerning the efforts to have Joe Bartley pardoned went to ex-Governor Poynter a few days ago for that purpose.

THE LEASE BILL.

It is said there is yet 600,000,000 acres of public land, a small portion of this can be irrigated

and made to raise feed to help winter and fatten the stock which ranges on the balance of it.

From whence comes the demand that the government shall make some disposal of the public land? It comes from the large cattle companies of which a per cent of the stock is held by foreigners.

Under the contemplated law, immediately upon its passage, every foot of the public lands will pass from control of the government for ten years, with privilege to renew.

Some public men have expressed the opinion that the sooner the government gets rid of the public land the better.

King Edward is the first King of Great Britain to visit Denmark since the time when England, Denmark and Norway had the same ruler in the person of Canute (Knut), who died 1035, and is buried in Winchester.

It Girdles the Globe. The fame of Bucklen's Arnica Salve, as the best in the world, extends round the earth.

BAD BLOOD, BAD COMPLEXION.

The skin is the seat of an almost endless variety of diseases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenic and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove permanently the ugly blotches and the red, disfiguring pimples.

Eternal vigilance is the price of a beautiful complexion when such remedies are relied on.

Mr. H. T. Shobe, 2704 Lucas Avenue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no benefit. Many medicines were prescribed, but without result, until we decided to try S. S. S., and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years old, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfailing cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable.

Bad blood makes bad complexions.

SSS purifies and invigorates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the impurities from the body.

If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physicians about your case. No charge whatever for this service.

SOCIAL PHILOSOPHY.

If the good didn't die young no one knows how bad they might be.

Many a man falls all over himself in striving to get ahead of others.

Unless a man has an occasional inning he is unable to enjoy an outing.

Every time a wise man encounters an obstacle he makes a stepping stone of it.

A girl gives up a lot of ice cream and theater tickets in exchange for a husband.

Only a woman's first marriage is made in heaven; she arranges the second herself.

The world has seven wonders, but the average woman can wonder more than that in seven minutes.

What will eventually become of the tramp if, as reported, his Satanical majesty finds work for idle hands to do?—Chicago News.

STRANGE, BUT TRUE.

The neatest town in the world is Brock in Holland. So tidy are the inhabitants that they won't allow horses in the streets. It contains a population of 2,700, and the chief industry is the making of cheese.

In the center of Liverpool there is a large roof garden. It forms the hobby of a woman who has at present in successful cultivation currants, gooseberries and a fine show of outdoor flowers, besides exotics in a greenhouse.

When an Arabian horse finds itself wounded and perceives that it will not be able to bear its rider much longer it quickly retreats from the conflict, carrying its master to a place of safety while it has sufficient strength. But if the rider is wounded and falls to the ground, the faithful animal remains beside him, unmindful of danger, neighing until assistance is brought.

MUCH IN LITTLE.

There is some talk of endeavoring to establish in London a league against juvenile smoking.

To commend anarchist crime in a public place is a punishable offense according to French law.

For his services the chef of a big hotel may receive \$10,000 a year, a big salary for cooking, but by no means out of proportion to his value to the hotel.
