### Contract for U. P. Lights.

The North Platte Electric Light Co., through Manager Walker, has signed a contract for furnishing the Union Pacific with electric lights for the buildings and yards. The work of wiring the buildings will be commenced at once.

The contract calls for the original number of lights at first contemplated, including three or four arc lights for the yards.

### Will Change Hands.

The stock of the Star Clothing House is being invoiced preparatory to being purchased by Pritchard & Co., who will continue the business. Messrs. Pritchard and Vanderhoof who form the firm are experienced clothing men, the former coming from Wisconsin and the latter from Omaha. **THE TRIBUNE** extends a cordial welcome to the new firm and is confident they will meet with success.

### Lose Good Citizens.

W. A. Vollmer will sell the Star Clothing House and will open a clothing department in the Bennett department store at Omaha as soon as the new Bennett building in that city is completed. Mr. Vollmer has been identified with the business interests of North Platte almost consecutively for fifteen years past, and has always proven an enterprising merchant and progressive citizen. The Star has always had a large patronage and it is conceded by all that it deserved all it received. Mr. Vollmer's reason for selling is that he desires to engage in business in a larger place than North Platte and when the opportunity to take the clothing department in the new Bennett store was presented he promptly accepted. In the removal of Will and Charley Vollmer, the town loses two young men who are among its most popular people, and every citizen will wish them abundant success in their new field.

Today will probably see the end of the period of low temperature, and the ground hog will be given an opportunity to see his shadow next Sunday. This event will be followed by six weeks of weather which will necessitate the wearing of winter wraps.

**This Country's Oldest Drummer.**

The fact that the Union Pacific has given a contract for electric lights is evidence that the division headquarters will not be removed from this city for at least thirty days.

The Union Pacific will, it is unofficially stated, do the heaviest business this year in its history. Traffic to and from the Orient will cut a big figure in the year's volume of business.

W. R. McKeen, Jr., division master mechanic at Cheyenne, was a passenger on No. 4 today, returning home from Omaha. He shook hands with a number of acquaintances at the depot.

A bulletin just issued by the census office concerning the manufacturing interests of Nebraska in 1900 shows that the number of establishments was 5,414, capital \$71,982,127, salaries 2,325,028, wage earners 24,641, miscellaneous expenses 6,835, cost of material used 102,197,707 and value of products 42,981,876. From which it will be seen that Nebraska is something more than an agricultural state. The showing is really remarkable.

**News for Ball Fans.**  
A Cheyenne dispatch in today's Bee says:  
Managers E. D. Gerrans and G. S. Walker of the Cheyenne base ball team and athletic park will attend the meeting of magnates of the proposed Nebraska league which will be held at North Platte on February 6. At the close of last season the local managers took up the matter of forming a league, to be composed of the towns of Cheyenne, North Platte, Kearney, Columbus, Grand Island and Shelton, and the North Platte meeting is the result. At the meeting plans will be discussed, guarantees will be fixed and a salary limit will be agreed upon. One of the most important things that will be insisted upon will be no exchange of players, no player from one team being permitted to play with another team in the league without the consent of the managers of all of the teams.

# DR. PRICE'S Cream Baking Powder

The difference of cost between a good and a poor baking powder would not amount for a family's supply to one dollar a year. The poor powder would cause doctors' bills many times this.

Dr. Price's Cream Baking Powder is the most economical in the end, because it goes further in leavening and insures perfect, wholesome food.

Used always in making the biscuit and cake it saves both health and money. Made from pure, grape cream of tartar, most healthful of fruit acids.

NOTE.—You cannot, if you value good health, afford to use cheap, low-grade baking powders. They are mostly, in spite of the pure food laws, made from alum, which endangers the health. All physicians will tell you that such powders in food are injurious.
