It is Mr. Langford's intention to deliver this lecture at points in this and other states.

The Chambers divorce case, which was called in the district court yesterday forenoon, was not finished although court continued in session until eleven o'clock last night. The case will be concluded tomorrow, Judge Grimes being called to Omaha last night. This suit is brought by Mrs. Frank Chambers against her husband who asks for a legal separation on the grounds of cruelty and non-support. The defendant claims that he has not treated his wife cruelly and that he has always provided for her. He also claims they were not legally married and that his wife is a lewd woman. He makes these claims in order to gain possession of the children, which form the bone of contention in the proceedings.

The Burlington has issued an order that hereafter a more severe educational test will be given applicants for firemen. A large number of examples in addition, multiplication and subtraction are submitted to them, they must write a letter applying for the position giving reasons for applying for railroad work, and answer a number of questions pertaining to the history of America. The new order specifies that applicants for firemen must be physically perfect, must not be under five feet seven inches nor over six feet two inches and must weigh not less than 140 nor more than 210 pounds.

The winds of the last few days have caused the ground to dry unusually fast and unless there is more moisture the prospects for the germination of seed is very poor. There will be but little small grain sown, however, and there will probably be plenty of moisture to germinate the corn.—Sutherland Free Lance.

BAKING POWDER

Is the Most Economical

Greater in leavening strength, a spoonful raises more dough, or goes further.

Working uniformly and perfectly, it makes the bread and cake always light and beautiful, and there is never a waste of good flour, sugar, butter and eggs.

While it actually costs less to make a batch of biscuit with the Price Baking Powder than with the so-called cheap powders, there is the additional advantage of better and more healthful food.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—Alum powders should not be used, no matter how cheap they are. They induce dyspepsia, liver complaint and kidney trouble.
