The Hog Market.

EDITOR TRIBUNE:

Persons unacquainted with the facts may imagine that the hog buyers of this city are taking advantage of the farmers in paying such low prices. Such is not the case. The buyers and shippers of hogs at this point, as a rule, have lost money. Baskin & Co. paid out nearly \$25,000 for hogs and their shipping returns show a profit of about \$160, allowing nothing for time and expenses. John Burke & Co. later paid out some \$19,000 for that product and got out with a loss of \$85, figuring nothing for time and expenses. Lindsay, Loveland & Beer, Mills and others have tried it, some of these having their own scales and yards, and then lost money. It was not the fault of the Stock Yards Co., as its pens are free with plenty of fresh water for the hogs; neither can the loss be attributed to the railroad company, who give the shipper good service to both Omaha and Denver markets.

The trouble is the hogs come to this city at any and all times and buyers often have to hold them from a week to ten days in order to get a carload. This means shrink in flesh and expense in feeding high priced corn. The remedy is simple. It is this: Establish certain days, say Monday and Tuesday of each week, as hog market days. The ground just west of the stock yards can, no doubt, be secured from the railroad company as a market place, when, if the farmers will bring in their hogs or other live stock they will find competitive buyers at highest market prices. The buyers will be in closer touch with the market and less liable to go broke in the business. JOHN BRATT.

The Eastern Star will hold a ten cent social at the home of Mr. and Mrs. C. S. Clinton Wednesday evening, April 16th. Members are at liberty to invite friends.

F. E. Bullard and W. H. McDonald went to Omaha Wednesday night to attend a state meeting of the Knights Templar.

Cattlemen to Organize.

A number of the cattlemen from this vicinity, and those having ranges north of the river, met Tuesday to arrange matters for the purpose of organizing a Cattlemen's Association. They held an informal meeting and decided to call a meeting May 3, when the regular organization will be effected. This is a step in the right direction and one that has forced itself on the owners of ranches. They find it necessary for the protection of their herds. The past year has been one of considerable loss to the cow man. There has been more reports of the loss of cattle by straying or being driven away the last season than ever before in the history of cattle ranging in the country north. It is the purpose of the association to take in a scope of country, commencing on the Keystone pasture on the west, Lena the north and Brady Island the east. Included in this territory will be ranches south of and between the rivers. They expect to organize this territory into an association for mutual protection against cattle rustlers and those who carelessly drive off stock in herds that pass through the range. They will employ an expert in brands to ride the range and keep tab on the cattle of the members of the association and his services will, doubtless, be found invaluable to the stock men. Their brands will be protected in the stock markets of Omaha and other shipping points where western cattle are marketed. The protection of the range from fire is another feature worthy of consideration.—Sutherland Free Lance.

In any of the particular lines which Doolittle carries, you are always sure of the largest and best assortment there. This is especially true of Athletic Goods. Look at the two entire counters devoted to Base Ball goods alone and be convinced.

Y. M. C. A. NOTES.

Base ball meeting in the social room tonight at 8 o'clock. All members of the association invited.

No better place to spend an hour next Sunday than at the men's meeting at 3.30 p. m. Rev. C. P. Wimberly will address the meeting. Strangers in the city specially invited.

Alix Wilson, proprietor of the new bicycle store, joined yesterday.

For two hours the other evening James Shaffer, Harry Moore and Andy Yost entertained a large number of young men in the social room with vocal and instrumental music.

Quite a number of new men are seen in the shops today. They will find the Y. M. C. A. a good place to spend their evenings. An invitation is extended to all.

The suggestion of John Bratt that the hog buyers of the city select two days per week to be known as hog market days is an excellent one, both for the sellers and the buyers. This plan has been adopted by many towns in western Nebraska and found to be very satisfactory.

Mr. and Mrs. John Weir, of Sterling Col., are expected here in a few days to visit their sons Charles and Robert.

Mrs. Thos. Haley expects to leave Sunday night for Canova, S. D., to consult Father Kroeger.

Julius Essig, who had been transacting business in town for a couple of days, returned to Maxwell this morning.

Notice.

Bids will be received for the construction of an irrigation canal on the Birdwood bottom land, the excavations and fillings amounting to approximately 45,000 cubic yards, until April 12th, 1902, at Dr. McCabe's drug store in North Platte, where plans and specifications can be examined. The undersigned reserves the right to reject any and all bids.

ROYAL Baking Powder is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap."

Housekeepers should stop and think. If such powders are lower priced, are they not inferior?

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive poison which, taken in food, acts injuriously upon the stomach, liver and kidneys.
