That the proposed physical examination, which Union Pacific road employes will be called upon to submit to, will be vigorously opposed by the employes, is evidenced by the talk heard among those concerned. Just how far the organizations will go in this resistance is difficult to predict.

The Gandy Pioneer intimates that the only way in which North Platte can secure the hogs raised in Logan county is to assist in building the proposed Gandy-North Platte telephone line. Then, says the Pioneer, the hog raisers can ascertain the price of hogs prior to making the trip to this city. Gandy has telephone connections with Callaway, and the merchants of the latter town receive a big patronage by reason thereof.

"The Missouri Girl," which appears at Lloyd's opera house on Monday, April 21st, is one of the most unique comedies ever placed on the stage in this city. It fairly bubbles over with fun from beginning to end and affords an evening of rare amusement.

The production was written to bring out the quaint humor of Karl Bennett, who is portraying "Zake Dobson," a gawky farmer lad, who convulses the audience at his every appearance. Mr. Bennett, in general make-up is well fitted for the part and his originality of speech and action perfects the character.

Assisting Mr. Bennett will be seen Miss Sadie Raymond who plays the part of the "Missouri Girl." She is a young woman of considerable personal charm and the right kind of force for a Missouri heroine. The scenic and mechanical effects have been given special attention in this production, each act requiring a setting of special scenery.

During the action of piece, specialties of an agreeable order will be introduced.

### Base Ball Next Saturday.

The first ball game of the season will be played next Saturday afternoon at athletic park, the opposing teams being the High School of this city and the High School of Shelton. The local High School team has been doing considerable practice work, and that they can play ball was evidenced last Saturday when they played against the Union Pacifics in a practice game. The team from Shelton is said to be quite a strong one, and a close and exciting game is confidently expected.

It is hoped that citizens will turn out liberally and thus give the local boys the proper financial encouragement, as they are at an expense of about fifty dollars in getting the Shelton team here.

### Petroleum Used for Fuel.

The British tanker Clam is the first vessel to cross the Atlantic using petroleum for fuel. Each furnace has a steam generator which blows the oil atomized, against a fire-brick wall.

### Construction of Ancient Roads.

The construction of the Carthaginian roads differed so materially from that of the Roman highways that it is an easy matter for antiquarians to distinguish between the two.

### Witty Pun on Buelow's Name.

Recent anti-British remarks by the German chancellor have resulted in the revival of the slit: "Man wants but little Herr Buelow, nor wants that little long."

### Siberian Crops Wanted.

### London Is Improving.

Year by year London becomes not only more and more a city of flowers, but also a city of doves. Around every building where it is possible to keep pigeons one sees constantly increasing flocks of these pretty creatures, and there could not be a more ornamental and delightful addition to our town population. In the sunlit spaces where they alight and feed the soft rush of their wings and the peaceful sound of their cooing make the most restful contrast to the harsh noises of the streets.

### Peculiar Provision as to Oaths.

The Maryland State constitution contains a peculiar provision as to oaths taken in court proceedings in that State. It is as follows: "That the manner of administer the oath or affirmation to any person ought to be such as those of the religious persuasion, profession or denomination of which he is a member, generally esteem the most effectual confirmation by the attestation of the divine being."
