IS rather a difficult article for a man to buy right in most shoe stores, that is to get it to fit him and suit him, and wear him as it should: So many kinds of shoes are sold that look well at first, and don't wear as they look, that it troubles a man to know where to purchase his shoes.

Let us recommend to you

President Ripley, of the Santa Fe R. R. Co., comes to the front with a \$20,000 cash subscription and a building site for a Y. M. C. A. building at Topeka, Kansas, providing the city raises \$10,000. International Sec'y McDill is on the ground and will undoubtedly secure this splendid prize.

Should the weather turn hot and continue so, the water standing in all sections of the city is pretty certain to give forth a stench that will discount hamburger cheese. And following this condition it will not be strange if considerable sickness results.
It is generally believed that the wet weather of the past week will result in practically killing off the crop of young grasshoppers, and will also destroy the alfalfa and cut worms. Prior to the rains of last week the young grasshoppers were reported very plentiful in nearly all sections of the county.

Stabbing Affray.
Andrew Anderson, living about five miles west of town was severely wounded last Saturday by a knife in the hands of Wm. Dickinson, better known as "English Billy." The two men became involved in a quarrel, the nature of which neither are inclined to divulge, and Dickinson drew a large pocket knife and began slashing at Anderson. One blow penetrated the left arm near the shoulder completely severing the main artery, another cut was made on the right shoulder, and the clothes covering Anderson's breast were cut but the knife did not enter the flesh at that part.
Dr. Dent was summoned and rendered the necessary medical aid. The severing of the main artery in the left arm makes a very dangerous wound, and at this time the result cannot be determined.
A warrant for Dickinson's arrest will probably be issued.

Struck by Lightning.
During the rain storm yesterday morning about eleven o'clock lightning struck the residence of James Flynn, in the Third ward, damaging the house and furniture to the extent of several hundred dollars. The lightning struck the chimney, thence entering the house, doing much damage to furniture and bulging out one end of the house. The cook stove was broken to pieces and a dog lying asleep nearby was killed. At the time of the accident Mrs. Flynn was taking a pan of bread out of the oven and the six year old daughter was sitting on the stove hearth. Fortunately neither was injured although it was a very narrow escape for both. The interior of the house caught fire from the coals in the stove but the flames were almost immediately gotten under control and very little damage resulted from that source.

A Pleasant Party.
The farewell party tendered Mr. and Mrs. W. J. Stuart and Mr. and Mrs. W. M. Cunningham by the West End card club Friday evening was attended by thirty-six of the forty members of the club, the remaining four either being out of town or unable to be present. The party was held at the First National Bank hall, which is well adapted for such purposes. High-five was the entertaining feature and right pleasantly did the games progress from nine until eleven-thirty o'clock, when ice cream, cake and coffee was served.
The guests of honor have been members of the West End club since its organization, and it is with much regret that the members of the club see them depart from the city.

Spring Ailments.
There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the aerobions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at A. F.
