FRED R. GINN,
County Clerk.

Going to Gothenburg the other day, on the train, was a man who was trying to pacify a crying child. After a long suffering some of the passengers began to express their indignation that they were to be disturbed and that somebody better look after the child. At last the man said to them: "Gentlemen, I am very sorry that you are disturbed; I am doing the best I can. Its mother is forward in the baggage car in her coffin." After that there was no complaint. Everyone in the car was ready to do something and the child found numerous friends among the ladies on board. —Lexington Clipper.

Tom Thumb Wedding.

The Tom Thumb wedding at the opera house Friday evening was unquestionably one of the prettiest juvenile entertainments that has ever been given in town and the performance well deserved the large audience present. The actors in this wedding were children ranging in age from four to eight years, the girls wearing gowns entrain and the boys evening dress, the whole presenting a very pretty appearance. Grace Casey appeared as Miss Lavinia Warren the bride, and Clarence Bickensderfer as Tom Thumb, the groom. The wedding was a representative one in every sense, having a maid of honor, a best man, two flower children, six bridesmaids and two ushers. The children assembled in the rear of the hall and proceeded to the stage in the correct formality of wedding party. Milledge Davis, as Bishop Van Rensseler, officiated.

Following the ceremony a soldiers' drill and a sailors' drill were executed by young boys, Irma Clinton sang and Geraldine Bare gave a recitation. Mrs. Frank Bacon and her assistants are entitled to much credit for the very smooth manner in which every detail of the entertainment was carried out. The net receipts of the evening were about sixty dollars.

Railway Miscellany.

Last month 128 engines were turned out of the Baldwin works, more than two-thirds of which were freights of the most modern type. It is expected that the output this year will break all records.

It is reported that President Harriman, of the Southern Pacific, has let an additional contract for the reconstruction of a part of the Central Pacific. It is said the work includes three tunnels, grading and masonry.

The Union Pacific district machinists, through their executive committee, have decided that a nine hour day is essential for Saturdays, with only eight hours work, but pay for nine hours. The wage scale as fixed by the committee is as follows: Omaha 34 cents per hour, Denver 34 cents, Grand Island 34 cents, Kansas City 34 cents, North Platte 38 cents, Cheyenne 40 cents, Green River 40 cents, Rawlins 40 cents and Evanston 35 cents.

The big locomotives in use by the Jersey Central to draw its heavy trains have mammoth boilers, which so encroach on the space usually occupied by the engineer's cab that it is probably only men of the ordinary size will be employed by the road as engineers in the future. A forcible illustration that the big engineer is a bad misfit for some of the new type engines was brought to light when one engineer of generous proportions of girth was ordered to take one of them out in an emergency. The engineer made several desperate attempts to squeeze through the cab door but at the end of the struggle he still was on the outside, and there he remained.

Gasoline five gallons for \$1.05 at the Hub Grocery.

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys become sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the accretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c at A. F. The World's Greatest Diver.

The greatest, longest, highest diver the world has ever seen: Capt. Santiago. Promptly at 10:30 a. m. and 6:30 p. m., every day, on the grounds free. The captain will fairly astonish all who behold his fearful, high, backward and headlong dives. The height will surprise you, the flight will hypnotize you, the descent will appall you, the finish will make you wonder why the whole does not finish the flying, falling, tumbling, somersaulting, intrepid, dashing and daring, death-defying diver himself, to be seen with the Great Pan-American shows at North Platte on June 3d.

President Roosevelt at the unveiling of the monument at Washington to the memory of the dead of the Spanish-American war: "What we need most of this republic is not special genius, is not unusual brilliancy, but the honest and upright adherence on the part of the mass of the citizens and of their representatives to the fundamental laws of public and private morality which are now what they have been during the recorded history. And we shall succeed or fail in making this republic what it should be made—I will go a little further—what it shall and will be made, according to the manner in which we seriously and resolutely set ourselves to do the task of citizenship, which consists of doing the duties, private and public, which in the aggregate make it up.

Cures When Doctors Fail.

Mrs. Frank Chinnson, Patterson, Ia. writes June 8th, 1901: "I had malaria fever in a very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine, the fever would return. I used a sample bottle of Herbine, found it helped me. Then I bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them. Herbine 50c bottle at A. F.
