The strikers are also opposed to the Glade boys and Pitcher Hoffmeister for working under a scab and the audience demanded that they be left out of the game and that the manager resign before the audience, which he refused to do. The game was called off, the entrance money remaining in the hands of the Superior team.

In view of recent late trains, due to incapacitated engine, a good many people will doubt Supt. McKeen's statement that the motive power of the Union Pacific is in as good shape as at any time during the past six months.

On his return to Omaha after his recent trip over the Union Pacific system, Supt. McKeen stated that the motive power was in as good, if not better, condition than it was six months ago and that the Union Pacific had plenty of engines to run through the busy season or the last of January, barring accidents. He stated also that the road would have no difficulty in transporting all grain the company is asked to, as far as engines are concerned, and that no faith was placed in the report that the delivery of the new engines was retarded because of the threat of the machinists and boiler makers in the shops where the engines are being built, if these engines were sent to the Union Pacific during the present labor strike, they would strike. The report that all switch tracks at Cheyenne and other places along the road were blocked by loaded freight cars waiting for engines to move them was denied and Mr. McKeen said the tracks were clear and trains running in good order.
