REPUBLICAN TICKET.

- For Governor—JOHN H. MICKEY. For Lieutenant Governor—E. G. MCGILTON. For Treasurer—PETER MORTENSON. For Secretary of State—G. W. MARSH. For Auditor—CHARLES WESTON. For Supt. of Public Instruction—WILLIAM K. FLOWER. For Attorney General—F. N. PROUT. For Commissioner of Public Lands—GEORGE D. POLLMER. For Congress, Sixth District—MOSES P. KINRAID. For State Senator—W. D. GIFFIN. For Representative—GEO. C. McALLISTER. For County Attorney—A. H. DAVIS. For County Commissioner—C. A. GLAZE.

THE Nebraska state banks are carrying more than double the reserve required by law. This is evidence that there is no stringency in money in Nebraska. The statements of the banks also show unusually large deposits.

In the eyes of a good many fusionists the fact that the republican candidate for governor is not a beer guzzler is sufficient reason why he should be defeated. So far, Mr. Mickey's temperance is the only charge that has been brought against him.

THE end of the Pennsylvania coal strike by arbitration has established a precedent that will in the future be demanded by one side or the other in labor difficulties. Arbitration is undoubtedly the sensible way of settling a strike, and might be applicable in the present difficulty on the Union Pacific.

FUSIONISTS in Nebraska admit that their only hope of success lies in the apathy of the republicans. They are therefore working to get out the full fusion vote and are doing it as quietly as possible so as not to arouse enthusiasm among the republicans, who they believe will stay at home. Republicans of Lincoln county should be awake to the fact that every individual vote is needed and that every republican in the county should go to the polls and vote. Don't stay at home with the assured feeling that a sufficient number of other republicans will vote to carry the county and state. That feeling often brings defeat. The greater the republican majority in the county and state the more reliably republican will the county and state be in the future.

The fusionists in Lincoln county are devoting all their campaign work to the Third commissioner district, with the hope of electing their candidate. The vote in the district is somewhat close, and unless republicans turn out to a man and vote, Mr. Glaze: the republican candidate, may suffer defeat. The election of the fusion candidate would give the fusionists control of the county board and give them a big advantage in the election of 1903 when a full county ticket will be elected. But, more than this. Under republican administration Lincoln county is getting in good financial condition, and if the control goes to the fusionists, the reign of extravagance which existed when the fusionists were in power before will be re-enacted. A vote cast for C. A. Glaze will be in favor of the present economical administration of county affairs.

THE saloon element in the state is doing everything it can to defeat John H. Mickey for governor. In speaking of this move, the Blair Pilot says: Three years ago such a move was made when M. B. Reese was the candidate for supreme judge and when his defeat was accomplished one bear-eyed, bloated official of the saloon men's state organization, roamed about Nebraska boasting how his organization had held the balance of power and how it had turned Mr. Reese down. One year ago they attempted the same deal, but met a crushing defeat simply because their well-laid plans became known and decent, sober people, those who are willing that the saloons shall run under certain restrictions, lined up for Judge Sedgwick, with the result that his majority was about 15,000. Mickey is a man proud of his sobriety, as every man should be, and if defeat should overtake him it will be no reflection on the sober element of Nebraska for having failed to perform a duty.

No Strings on Mickey.

From address delivered by J. H. Mickey at Grand Island:

"I have noticed that in some newspapers it is charged that my nomination was brought about by an agreement among the railroad interests of the state, based upon an arrangement with me previous to the meeting of the state convention. This is a serious charge. The people have a right to know if it is true. A man who would consent to be used by one class at the expense of the others would not be worthy of support.

"I desire to say most emphatically that under no circumstances would I place myself in such a position.

"Let me go further and say I received the nomination for governor without making a single pledge as to what I would do if elected.

"I am still entirely untrammelled and will remain, only saying, if elected, so far as I have the ability, I shall do what I think is for the welfare of the whole people of the state. I confess that I have an ambition that it should be said of me 'He made a good governor,' and it shall be my purpose so to conduct the affairs of the state that this may be truthfully said."

Unionized Labor Here to Stay.

The failure of the formidable effort of the anthracite coal operators to crush the miners' organization is a distinguishing and most significant fact which should not be lost sight of. It is of no material consequence that the operators still recognize that organization. It has received recognition from the president of the United States and it will be recognized by the commission he has appointed to pass upon the issues involved in the strike. Mr. Mitchell and other representatives of the miners will appear before that body upon equal terms with Mr. Baer and other representatives of the operators and it is not to be doubted will be treated with entire fairness and impartiality. The example of President Roosevelt in not discriminating between the operators and miners will be observed by the commission in its investigation.

"Capital must make up its mind," says the Springfield Republican, "to get along with unionized labor. Such labor is here to stay and the law is more likely to compel the unionization of labor than it is to outlaw the labor union. The sooner this fact is recognized, the sooner

Rheumatism

The liniment bottle and flannel strip are familiar objects in nearly every household. They are the weapons that have been used for generations to fight old Rheumatism, and are about as effective in the battle with this giant disease as the blunderbuss of our forefathers would be in modern warfare.

Rheumatism is caused by an acid, sour condition of the blood. It is filled with acid, irritating matter that settles in the joints, muscles and nerves, and liniments and oils no nothing else applied externally can dislodge these gritty, corroding particles. They were deposited there by the blood and can be reached only through the blood. Rubbing with liniments sometimes relieve temporarily the aches and pains, but these are only symptoms which are liable to return with every change of the weather; the real disease lies deeper, the blood and system are infected. Rheumatism cannot be radically and permanently cured until the blood has been purified, and no remedy does this so thoroughly and promptly as S. S. S. It neutralizes the acids and sends a stream of rich, strong blood to the affected parts, which dissolves and washes out all foreign materials, and the sufferer obtains happy relief from the torturing pains. S. S. S. contains no potash or other mineral, but is a perfect vegetable blood purifier and most exhilarating tonic. Our physicians will advise, without charge, all who write about their case, and we will send free our special book on Rheumatism and its treatment.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

will the country be placed on the way toward attaining a permanent industrial peace." This fact is now pretty generally realized. One of the largest operators in the Ohio bituminous coal fields says that his company used to think that the unions were against its interests, but it gradually worked out one point after another with the union leaders and found them, on the whole, fair, reasonable men. "Since we made our agreements with the men," he stated, "we have done better than ever before. The agreements have been kept, and kept sometimes under pressure and when it was for the temporary advantage of the men to have broken them. We have found it safer to make contracts with the labor unions than we have to make contracts with competing companies." He regarded the agreements with the men as one of the best moves his company had ever made, hence he is a friend of organized labor.

All fair-minded men realize that with capital working in combination with a view to getting the greatest possible return, the right of labor also to organize for the promotion of its interests must be admitted. The great lesson which both capital and labor need to learn is to work together in mutual recognition of the rights of each. That they are learning this is not to be doubted and the great coal strike, enormously costly to both parties, will impress the lesson more strongly and deeply.—Omaha Bee.
