The North Platte friends of Rev. D. W. Crane will regret to learn that he is critically ill at his home in Kearney. Last evening's Kearney Hub says: The condition of Rev. D. W. Crane is considered critical today. Two physicians are in attendance and every phase of his malady is closely watched. Inflammation has set in, but it is yet too early for the physicians to determine whether this is a mark of improvement or not. No operation will be attempted, at least as long as the patient remains as weak as he is at present. The only relief feared is that blood poisoning may set in and if that should occur, it is doubtful that Mr. Crane could recover. Opium is administered now to relieve the pain and under this influence Mr. Crane was resting easily when the Hub called today.

RAILROAD NOTES.

Roadmaster Brown of the Middle District is transacting business in town today.

Supt. Baxter and Master Mechanic Barnum transacted business in town yesterday.

Sept. of Motive Power McKeen is spending today in town, having arrived from the west last night.

Yesterday morning there were 204 men on the shop pay-roll, exclusive of those employed on the ice gang.

Philip Picard and Alex. Russell left Wednesday for a point in Minnesota, where they will work in railroad shops.

Engine 1832, which had been in the Omaha shops for repairs, came up yesterday and will do passenger service on the Fourth district.

An official announcement has been made that the Union Pacific has purchased a controlling interest in the St. Joe and Grand Island road.

Master Mechanic Barnum says that the new shops at Omaha are in full operation and that sixteen engines are in the shops undergoing repairs.

Norman Wilson, who has been working at Ogden for several weeks, is in town visiting his family. He is undecided as to whether he will remain at Ogden.

H. C. Phelps, who had been stationed here during the summer as agent of the fruit express companies, completed his work yesterday and left for his home in Kansas, accompanied by Mrs. Phelps.

The force of men in the shops at Grand Island is insufficient—or inefficient—to do all the work on the Second district engines and much light repairing that should be done there is performed at North Platte shops.

One of the employes at the shops, Slinksky by name, fell from the running board of an engine Tuesday and sustained a broken rib, a badly bruised shoulder and some internal injuries. He was taken to an Omaha hospital Wednesday night.

It is nip and tuck with with the Union Pacific to keep sufficient coal on hand at the various coaling stations to supply the needs of the engines. Last Wednesday the supply at Grand Island was entirely exhausted for a few hours and one passenger engine left that place with a tank partly filled with a quality of coal suited only for a stationary boiler.

To Our Fellow Labor Unionists And to All that Toil.

DEAR FRIENDS AND BROTHERS:

It is with the greatest of pleasure and the best wishes for his success that we call your "special" attention to the record of W. M. Finck as an employer of union labor.

He is one of the few employers who has encouraged his employees in their efforts to organize. As a partner in and superintendent of the largest plant in the country, he gave the members of our local during their organization period his hearty co-operation, and he has always been willing to meet us more than half way. Mr. Finck has established a factory of his own to be known as,

W. M. Finck & Company.

As he will operate a strictly Union Factory and employ none but organized labor we feel we are duty-bound to ask our fellow workers in all trades to give him and those who sell his

"Detroit "SPECIAL" Brand of Working-men's Clothing."

Bearing the label of our union, a guarantee of superiority, their patronage.

We can truthfully say you will receive a dollar in value for your dollar in coin. We will receive a dollar in coin for every dollar's worth of work.

In the true spirit of unionism we ask you to wear clothing bearing the garment workers' label.

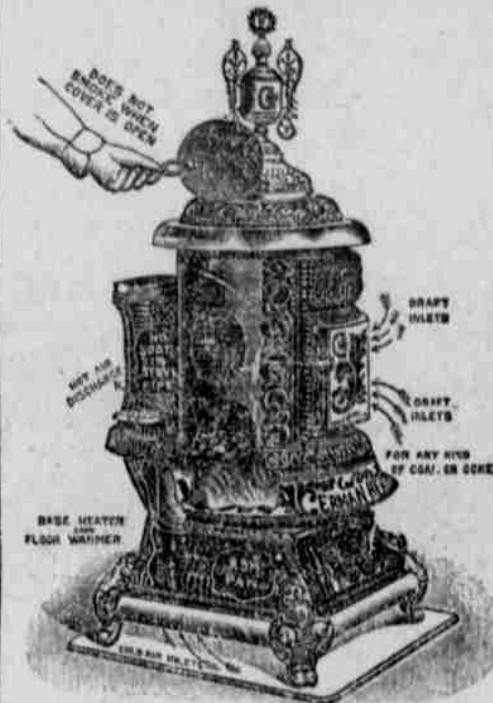

With many kind wishes for your success, we are,
