Good times and big earnings are announced as the cause of the company's generosity, and was voluntary. W. E. Colvin, who for a number of years has been living in the north part of Deuel county on a ranch, has skipped the country, leaving his family and mortgages on his property aggregating \$125,000. A few days after he left, his wife received a letter from him dated at Denver, which stated that he would never return. Some say that Colvin took about \$25,000 with him, but this his wife denies, and she fears that ere this he has taken his life.

Electric Light Plant Sold.

Lester W. Walker, superintendent of the North Platte Electric Light Co., and part owner of the plant, received a letter yesterday morning from J. J. Henry stating that the latter had sold his stock in the company to Colorado parties and asking Mr. Walker to place a price on the stock held by him. Simultaneous with the letter came A. G. Tiffany, who will on next Monday succeed Mr. Walker as superintendent of the plant.

This change was somewhat of a surprise to Mr. Walker as he had no direct intimation that Mr. Henry had a sale of the plant in view. Mr. Walker will dispose of his stock to the new purchasers, and will probably seek a new field. To Mr. Walker is largely due the credit of having an electric light system, and his management of the plant has been very satisfactory to the patrons. He is a very competent electrician and to him is due the excellent working of the system.

The Fair Sale Continued.

At the beginning of the Manufacturers' End Sale at the Fair Store it was the intention, and was so announced, that the sale would close November 15th. The patronage accorded the sale has, however, been so large, and so many requests for a continuance have been made, especially by those who have a holiday next week, that Mr. Richards has decided to continue the sale all all of next week, closing November 22d. The purchasing public will no doubt be glad to learn that this bargain-harvest offered by The Fair is to be extended a week longer and they will not be slow to show their appreciation of Mr. Richards' action in extending it a week. The opportunity to buy reliable merchandise at such low figures as are offered by The Fair seldom comes to the residents of North Platte and Lincoln county.

To the Public.

The concert to be given this evening by the Schubert Symphony Club will be held at the opera house instead of at the high school auditorium as formerly advertised. Purchasers of tickets will govern themselves accordingly.

RAILROAD NOTES.

Supt. R. W. Baxter spent yesterday in town coming up from Omaha the evening before.

Freight traffic on the Union Pacific has fallen off to some extent, but as yet no reduction has been made in the number of train crews.

Archie Campbell, a second district brakeman, had his right foot badly crushed at Wood River yesterday. He was also bruised on the head.

An employe of the U. P. coal chutes named McGinn received a fall yesterday which resulted in several ugly gashes on his face and head.

Engine 1859, pulling passenger train No. 4, and two mail cars were turned over in the Grand Island yards last night by running through an open switch. No one was hurt.

Several of the 1700 class of freight engines have been supplied with high wheels and will be put into passenger service. Two of these remodeled engines—1725 and 1704—passed west today and will run between Sidney and Cheyenne.

An Omaha paper states that during the past week or ten days the non-union force at the Union Pacific shops in that city has dwindled from 645 to 220. Very few strike-breakers are being imported by the company, due it is said, to the inability to get men whose services are worth having.

The Union Pacific strikers have fitted up cheerful quarters in a front room over the One Minute Coffee House on Front street, and meet there regularly for the transaction of business. The quarters also serve as a reading room for those who have leisure time during the day or evening.

The general committee of the Order of Railway Trainmen, which is now in session in Omaha, will demand the same increase of wages which was granted the lines terminating in Chicago, namely about twelve per cent. The committee is confident that the Union Pacific will grant the demands and that a strike is a remote possibility.

In the annual report of the Union Pacific made public this week it is announced that the failure of the corn crop in one section traversed by the company's lines was offset by an extra yield in other sections and by an enormous increase in the shipments of industrial products. There was appropriated from the year's income \$2,000,000 for betterments, improvements and equipment, an increase of \$500,000.

A strike breaker came to Omaha yesterday from North Platte, who claimed that he had been robbed of \$300 by other strike breakers in the employ of the Union Pacific. He said that he had saved that amount out of his earnings and his fellow workmen succeeded in wielding an influence over him sufficient to divert of him his strong box. He came to Omaha to lay his burdens before William Canada, chief of the Union Pacific's detective force.—Omaha Bee.

The Omaha Bee in speaking of the advance in wages to be made by the trainmen on the Union Pacific, says that since the seventeen roads in Chicago granted the demands made by their trainmen the

men on other lines have taken courage, and it is thought that the Union Pacific will readily accede to the demands of its employes. The present strike on the Union Pacific is counted on as an advantageous element for the trainmen, for it is thought the company has about all the labor difficulty in this strike it can well care for.

President Burt is quoted by an Omaha paper as saying that the Union Pacific trainmen are not thinking of an increase in wages, and that they will not be so unwise as to ask for an advance. It correctly quoted, President Burt is ignorant of facts that are generally known, vide, that the trainmen will demand an increase of pay, and that a refusal to accede to the demands will result in complications that will make the present labor trouble on the road seem of minor importance.

Dies of Pneumonia.

Frank Bacon, receiver of the United States land office, died at his home in this city Tuesday night of pneumonia. About a month ago the deceased contracted a cold, which seemed to resist the usual treatment, and which during a greater part of the time was accompanied by a cough and fever, but not until Monday of last week did he consider his condition such as to call for a relinquishment of his office duties. On that day, however, Mr. Bacon felt so badly that he went to bed and a physician was summoned. From that time until death his condition grew worse, but pneumonia did not seem to develop until a few days before the end came. Tuesday afternoon he became unconscious and in that condition passed away. His wife, his sister Mrs. Helen Hart, of Rockport, Ill., his brother-in-law Dr. Quinn of Gothenburg, and his brother Henry Bacon of Cozad were present when the spirit took its flight.

A snort funeral service was held at the residence last evening conducted by Rev. Greenlee, and this morning the remains were taken to Gothenburg for interment.

Frank Bacon was born in Illinois November 24, 1853, where he lived until about eighteen years ago when he moved to Dawson county and invested in a ranch south of Gothenburg. Being active in politics and a staunch republican, he was nominated and elected to the legislature from the Fifty-fourth district in 1895 and well served his constituents. In July, 1898, he was appointed receiver of the United States land office in this city and upon expiration of his commission last July, he received a re-appointment from President Roosevelt.

Mr. Bacon was a man of resolute character, strict integrity and of more than ordinary business ability. Though somewhat retiring in disposition, he made friends readily and kept their friendship by reason of his gentlemanly conduct, fairness and good-will. During his four years' residence in North Platte he gained the esteem of all, and his sudden and untimely death is regretted by all.

Mr. Bacon is survived by his wife to whom he was married about two years ago, and in the loss of a devoted and indulgent husband she has the deepest sympathy of all acquaintances in North Platte.
