Following a custom inaugurated by his father in Germany many years ago, Henry Waltemath presented a number of people Wednesday evening with a Thanksgiving turkey. In this particular instance the recipients were Union Pacific strikers, and each head of a family who applied was presented with a fine fowl. Not less than \$25,000,000 is the estimate of the loss entailed upon the farmers of Nebraska this year by their failure to care for their corn fodder, made by Dr. W. A. Thomas, state veterinarian. Dr. Thomas accepts the declaration of the experiment station experts that the fodder is worth one-third or one-half of the market value of the grain. Placing the corn crop of the state this year at 225,000,000 bushels, it is easy to see that the estimate of \$25,000,000 for the loss of the fodder is not so far out of the way, wild as it may seem at first glance. More than that, Dr. Thomas insists that with a proper curing and care of the fodder the corn stalk disease would disappear.—State Journal.

THE BIG UNLOADING SALE.

THIRD WEEK.

The Third Week and the great work still goes on. Panic prices reign through the Big Store. We have got 'em jumping sideways, but they can't get in line. They never stood up on the firing line and they never will. They are hollering, but the people cannot hear them, because they know we are making prices such as was never made before.

The crowds are growing greater each and every day. You will see them coming in from the cross-roads, the main roads, the by ways, on the varnished cars, in carriages, a-foot and hoss-back. The tidings are going out to all of the people and it is tidings of great joy. It is a time when they can buy the necessities of life at a season of the year when they need them for less money than they are usually sold by the sheriff if he was in charge; but we made up our minds to cut this big stock down and give the people the benefit right in the heart of the profit making season of the year, and how well we have done it so far we leave that for every man, woman and child to say, and we don't believe there will be one voice raised against us, because we put out the price lower than they ever saw before. We don't confine ourselves to a few items, but went through the entire institution, worked day and night getting our goods out, marking them down, not taking cost into consideration. Wholesale prices and less on thousands of items in this big store. A wonderful reconstruction, and a great work is going on here, and we are doing it in order to bring out thousands of more people. We want them to come from all the towns within a radius of a hundred miles of here. We have sent word to them and they are coming, some coming a little faster than others, but they never pass the door. They read signs and they see the greatest change they ever saw in this city, and when they enter the door they see the wheels of commerce rolling as they never rolled before. The clerks are all busy, they are busy as bees. Each and every item that stares them in the face is a real bargain. Come and see if it is not so.

The Leader,

J. PIZER, Prop.
