

CUPID ALWAYS GETS BUSY

in the Spring, and in view of that fact we have a very fine collection of engagement and wedding rings. The settings are the most exquisite ever seen, and are well worthy of the use they are put to. We wish to call attention to the fine workmanship on all our jewelry making it extremely durable and guarding against loss of stones and settings.

CLINTON, JEWELER AND OPTICIAN.
At a meeting of the Commercial Club directors Tuesday evening a committee was appointed to prepare matter for an advertising booklet which will set forth the advantages of North Platte and Lincoln county to the homeseekers. There will be 5,000 of these issued, and 2,500 of them will be placed in the hands of eastern people who have announced to the passenger department of the Union Pacific their intention of making their future homes in the west. The booklet will contain views of the city and county.

LAMPLOUGH ESTATE.

Why Does It Pay To Paint?

Preservation

Good lumber is scarce and high in price. Old lumber well seasoned and preserved by painting, is more valuable than new. Paint is cheaper than lumber.

Valuation

The cash value of property is advanced by painting. Ask your real estate dealer why he paints before trying to sell.

Reputation

Tourists say that the prosperity of a community can be accurately gauged by the appearance of the dwellings. You are one of a community—does your home show you to be successful?

LINCOLN PAINTS

Sold By **Workman & Derryberry,**
NORTH PLATTE, NEB.

Loss by Narrow Margin.

In the trap shoot at Gothenburg yesterday between the team of that place and the North Platte team, the latter lost by eleven birds. There were ten men to a team, with seventy-five birds to the man, a total of fifteen hundred birds. That the North Platters lost by only eleven is evidence that the twenty men as a bunch are evenly matched. Two or three of North Platte's best shots fell down badly on their work.

For Rent.

Methods of Obtaining Sites.

Postmaster Thomson hands us the following circular issued from the supervising architect's office of the treasury department relating to the methods employed by the department in securing sites for federal buildings:

Upon the enactment of a law authorizing the acquisition of a site for a Federal building the Treasury Department invites, through a local newspaper, proposals for the sale or donation of a suitable corner. This advertisement gives such information as to the dimensions of the site and the general requirements as will enable intelligent preparation of proposals.

The offers are opened in Washington at the time stated in the advertisement, and as soon thereafter as practicable an agent of the Department is sent to make a personal examination of the proposed location and such others as he deems desirable. Upon this report, together with representations in writing from other sources, the Department selects the site and, if the property is to be acquired by purchase, accepts the offer of the successful bidder, subject to the conditions stated in the advertisement and the Attorney General's approval of the title.

Whenever the Department is unable to purchase an acceptable site at a reasonable price, or where acceptable title can not be secured by voluntary conveyance, a selection is made and the title acquired by condemnation proceedings, in which the price to be paid is judicially determined.

The buildings (if any) on the site should be reserved by the vendor, to be removed upon notice after payment for the land has been made. Generally, notice to move is not given until the construction of the Federal building is about to begin, if the vendor is willing, pending such removal, to pay a reasonable ground-rent.

Plans for public buildings are taken up in the order in which the titles to the sites therefor are vested in the United States, and the contracts for their construction are let at as early a date as practicable.

Local Railroad News.

Elkhorn lodge B. of L. F. and E. nominated officers last Saturday for the ensuing year, and the official ballots will be sent out the early part of next week.

Supt. Whitney, of the Utah division, was a passenger on No. 10 yesterday enroute to Omaha. While here he met a number of friends and promised them that when enroute west he would stop over a day in North Platte.

The record between Chicago and Pittsburg was broken Tuesday by a train, bearing Dr. Murphy, making the run of 458 miles in 477 minutes. Dr. Murphy was called to Pittsburg to attend the wife of a millionaire steel manufacturer.

Among the visitors in town yesterday was D. B. Ball, of Wilcox, who was one of the four mail clerks who ran into North Platte in 1867 when this was the end of the Union Pacific. Later he was deputy United States marshal. He remembered a number of our old-timers. Mr. Ball was enroute to Denver.

George Friberg, of the car repair gang, had his hips badly bruised Wednesday forenoon by being caught between two cars which came together from the momentum of a third car which had been pinched by a Jap laborer. No bones were broken but Mr. Friberg will be on the "bad order" list for a week or two.

A New York dispatch announces that the Union Pacific has sold to a syndicate of American and European bankers \$40,000,000 of the \$100,000,000 issue of first mortgage bonds authorized last month. Here's hoping that part of that sum will be used in constructing the North Platte Valley line through to Medicine Bow, Wyo.

The change of headquarters of engineers from Grand Island to North Platte was to have become effective June 1st, but it was not until today that the lists were sent to this terminal. The passenger runs have been assigned, and it is presumed that in a short time the change will be working satisfactorily to all. So far only five former mechanics of the Grand Island shops have been sent here to work, but it is presumed that eight or ten more will arrive in a day or two.

Dolson Makes Fast Run.

Engineer Dolson made a record-breaking run on train No. 9 Wednesday afternoon, covering the distance from Grand Island to this city in two hours and forty minutes including a seven-minute delay at Kearney on account of a crowd which had assembled to hear Bryan. The actual running time was therefore 152 minutes in making 137 miles. The run from Lexington to this city, sixty-two miles, was made in sixty minutes.

THE WELD THAT HELPS

"Pittsburg Perfect" ELECTRICALLY WELDED FENCES

are enjoying phenomenal success, and are conceded to be far superior to any other fences on the market. Thousands of pleased fence users will testify that "Pittsburg Perfect" Electrically Welded Fences will stand ordinary as well as hard usage. Will not sag in summer's heat nor break in the cold of winter. Are made of the best material for fencing purposes. Have stays that will not slip nor can they be moved out of place. Will conform to the most uneven ground and can be erected over hills and through valleys as well as on level ground. Have no slack wires to spoil the appearance as well as the efficiency. Do not require an expert to erect. Are now made with stay wires as large as the line wires.
