In the Spring, and in view of that fact we have a very fine collection of engagement and wedding rings. The settings are the most exquisite ever seen, and are well worthy of the use they are put to. We wish to call attention to the fine workmanship on all our jewelry making it extremely durable and guarding against loss of stones and settings.

### The Great Mrs. Fiske.

Mrs. Fiske, who has just won the admiration of New Yorkers with her brilliant performance of Rebecca West in "Rosmersholm" will come to the opera house Thursday of this week. In Rebecca West Mrs. Fiske has a role upon which she has been at work for several years and the results of this study are shown in her mastery of what is generally agreed to be one of the greatest, most difficult and most fascinating in the contemporary drama. She is the dominant and moving figure in a wonderful drama of love and expiation that is the crowning work of the master modern playwright Henrik Ibsen. The story of the love of Rebecca West for John Rosmer has an interest that grips the auditor throughout its narration and thrills him in the great confession scene in the third act and in the tremendous denouement to which the story progresses. It is in these latter scenes that Mrs. Fiske rises to her greatest height, but throughout the portrayal is characterized by that fine intelligence, introspective analysis and thorough technique at which Mrs. Fiske is unrivalled. Again, in this production, the ensemble acting of the Manhattan Company has come in for the highest sort of praise.
