A committee of firemen is canvassing the business men soliciting funds needed to defray the expenses of the state firemen's tournament to be held in this city next September. The committee is meeting is with liberal responses.

There is more or less talk of holding a Fourth of July celebration, but some of the business men think that as they have contributed to the firemen's tournament, that is about all that should be expected of them in the way of contributions. Unless we can have a celebration on a plan big enough to draw people to town, it is hardly worth the effort to have any. At this late date it would be almost impossible to get up a celebration on a large scale.

Why Does It Pay To Paint?

Preservation

Good lumber is scarce and high in price. Old lumber well seasoned and preserved by painting, is more valuable than new. Paint is cheaper than lumber.

Valuation

The cash value of property is advanced by painting. Ask your real estate dealer why he paints before trying to sell.

Reputation

Tourists say that the prosperity of a community can be accurately gauged by the appearance of the dwellings. You are one of a community—does your home show you to be successful?
