### Burlington Officials go to Wyoming.

George B. Harris, president, and Daniel Willard, vice-president, of the Burlington left Omaha yesterday on a ten days trip over lines in Wyoming. Their trip revives the rumor that the Burlington is about to build the connecting road from Guernsey to Thermopolis and in connection with the proposed line up the Platte valley will give that road a water grade from the Missouri River to its connection with the Great Northern at Billings.

The line was surveyed over a year ago and some work had been done in Wyoming, but when the panic came last fall all operations were suspended. The building of this road is one of the principal enterprises for which the Burlington recently made its big loan, and in the construction of the line \$27,000,000 will be expended.

Will Cary returned yesterday from Ogden and other points west, where he had been transacting business for a week or so. Mr. Cary is again employed in the engineering department of the Union Pacific.

There dropped into town the latter part of last week a man who is believed to be a representative of the Burlington and whose mission seemed to be to ascertain just the amount of work the Union Pacific is doing on its North River branch, and if it was known here that the company would build through to Medicine Bow. Friday he made a trip over the branch.
