DIXON, The Jeweler.

In order that roads of the county may be put in better condition, and also that a deficit in the road fund may be met, the levy for road purposes will be a little higher this year than last. It is not likely that any farmer will object to a little higher taxation for good roads purposes; in fact taxation for schools and good roads are two items against which we should never "kick."

Burglars Enter Seeberger Home.
Burglars entered the E. F. Seeberger residence Saturday night, but were frightened away before securing anything. Mr. Seeberger was temporarily absent and the fellows obtained entrance through an unlocked door which had been left open for him. Their presence became known to Mrs. Seeberger, who had retired in an upper room, by one of them slipping on the polished floor, which was followed by words between the two intruders. Mrs. Seeberger stepped to an open window and called for help, to which A. B. Hoagland armed with a revolver, responded but the burglariously inclined individuals had by this time made their escape. As might be imagined, Mrs. Seeberger and Mrs. Fred Weingand, who was her guest for the night, were badly frightened.

Consistency.

Where do we find "consistency" in the action taken in the circular issued by the "48," many of whom are members of the Commercial Club. Their statement in the circular against the water bonds on the 14th is not consistent with the criticisms that have been made from time to time by the business men, members of the club, against other citizens for patronizing mail order houses out of town. They used their influence in favor of a foreign corporation whose profits all go out of town. If they were really sincere in their desire to "boost" the interests of the city, it would seem that they should have worked "tooth and toe nails" for the water bonds and carry the bonds, so that the profits would remain in the city for the benefit of all.

TAXPAYERS.

We buy old gold and silver—haven't you some old pieces of jewelry that you will not use again. We will pay you handsomely for it.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
Two sizes—50 cents and \$1.00.
