FRIDAY, JULY 24, 1908.

A FEW weeks ago when the democrats had hopes of securing Hearst's support of Bryan, the democratic papers lauded him as a good fellow, now that he has declined to support Bryan, he is denounced as a political leper.

TAFT prosperity is evidenced in the statement of the East St. Louis commercial club that 15,000 men will be re-employed in the factories and mills of southern Illinois within the next thirty days. These industries had been running short-handed since last fall.

THE fourteenth husband of a Fremont woman obtained a divorce this week on the grounds of extreme cruelty. That this woman could ensure fourteen men within a period of thirty years shows how easy the average man succumbs to the wiles of a woman—especially if the woman has the form and dash.

PRESIDENT GOMPERS, of the American Federation of Labor, was apparently a little hasty in pledging labor support to Bryan. A New York dispatch the early part of the week says that at a meeting of the New York Central Federation Union held Sunday the action of Gompers was strongly denounced by the garment makers' union, the cloakmakers union, the carpenters' union and the pressmen's union.

By a unanimous opinion, the United States court of appeals at Chicago has remanded for re-trial the case of the government against the Standard Oil Co., in which the latter was fined twenty-nine million dollars. The court claims that a number of nice judicial questions are raised in the case, in which the trial court erred. This case will probably be kept in court until the Standard company practically gets off free.

DEMOCRATS in Nebraska who are sanguine of Bryan's election, will not find consolation in the letter which Dr. Geo. L. Miller, of Omaha, one of the oldest democrats in the state, writes to the Bee from his old home at Booneville, N. Y., where he is now visiting. The doctor says that among the 350 democrats in that town, he is not able to find one who will vote for Bryan. Speaking of New York state the doctor declares that "there must be a great change of opinion in this state if Taft and Sherman do not overwhelm Bryan and all his works by 200,000 majority."

The United States bureau of labor has discovered after due investigation that the average increase of wages per hour in 1907 over 1906 was 3.7 per cent and average number of hours worked daily one-fourth of one per cent less. The number of employees was one per cent greater. As an offset for increased wage rate the cost of foodstuffs are shown to have increased 4.2 per cent during the same period. This leaves the problem of wages and living, therefore, about where it was at the beginning of 1906. Admittedly the cost of living has increased considerably since 1896, but the earning capacity has increased far more than the cost of living, and it is doubtful if anyone, laboring man or not, desires to return to the lower cost of living of fifteen years ago and accept all that accompanied cheapness then.—Kearney Hub.

A Year's Foreign Trade. Despite the industrial and commercial depression that prevailed during the last six or seven months of the fiscal year ending with June 30, 1908, the trade balance for the year in favor of the United States, was the largest in the country's history, being in excess of \$666,000,000, or more than \$1,600,000, a day. The closing month of the fiscal year showed a neat gain in both imports and exports, holding a hint of a general resumption of normal conditions in the foreign trade. The combined imports and exports for the twelve months were \$3,055,000,000 from the record of the former fiscal year, but the decrease was almost entirely in imports. The decrease in exports from the former year was but \$20,000,000.

Analysis shows that the depression existing throughout the country served to slightly increase the export of manufactured products, while the exports of foodstuffs were unusually large. But this same influence of commercial depression worked quickly and effectively in reducing importations, with the net result of leaving to the credit of the country the largest balance of exports ever recorded. Only once before has such a balance—above \$666,000,000—been closely approached and that was in 1901, when the balance was \$664,000,000.—Omaha Bee.

Omaha Bee Buzzes. If the donkey is to be retired as the emblem of the democratic party, why not give the parrot a trial? A New Jersey man who claims to have been bitten 2,000 times by dogs is displaying symptoms of getting mad about it. John Temple Graves calls Mr. Bryan the guardian of the democratic party. That's all right. The party needs a guardian. Democrats are laying much stress on the amount of money spent by the republican congress. The fact remains that under republican administration there is always money to spend. The Match trust is said to have \$3,500,000,000 feet of lumber in reserve. This will not help the smoker who finds himself alone in the country with plenty of tobacco and his match pocket full of toothpicks. The assessment rolls returned to the state board indicate that the lands in Nebraska have increased within two years more than a quarter of a billion of dollars in value. This is simply another reason for believing that Nebraska will give its electoral vote to Taft.

A FACT PROVEN.

Should Convince Even the Most Skeptical of its Truth. If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide. Accept no substitute. "Destroy the cause you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—50 cents and \$1.00. McDonell & Graves, Special Agents.
