Made in finishes to conform to the prevailing fashions in millinery. Six sizes at the following prices:

Don't Spend \$3.50 When Fifty Cents Will do the Work

Prof. W. M. Hayes, Asst. Secty. of Agriculture of the United States says about Stock Food: "These balanced rations are often found by analysis to consist of the tailings of mills, elevators and breweries, mixed with molasses and salt, to make the compound palatable to the cattle, and one of the largest Stock Food Companies is said to use fine sawdust, finely ground, to cheaply bring up the weight of his product, instead of buying a superior and expensive balanced ration containing high fattening qualities and acting as a tonic, he has paid a high price for a feed containing, along with ordinary grain, finely ground alfalfa hay and other common food stuffs, \$5.00 to \$25.00 per ton, a high percentage of refuse, and non-nutritious matter, some of which may be positively dangerous to the health of his stock."

Make your own stock foods and remedies by using Skidoo Horse and Cattle Tablets for horses, cattle, sheep, swine and fowls; proper dose in tablets. Mix in feed or salt. They contain no sawdust, ashes, chopped feed or bran. Ask for and try once Skidoo Condition Tablets or Skidoo Worm, Kidney, Cholera, Cathartic, Heave, Fever, Hog Cholera, Distemper, Pink Eye, Colic, White Plague, Preventive, or Blister Tablets, or Louisa Miller, Spavin Remedy, or Barb Wire Liniment.
