TRUE watch fineness is a matter of workmanship and material—not of price, or of jewels, or of a gold case.

The fineness of the HOWARD watch is the fineness of intelligent design, of workmanship with a conscience behind it, of exquisite adjustment.

Every HOWARD is adjusted in its case, to heat, cold, vibration, change of position.

The price is fixed by the printed ticket attached at the factory—\$35.00 to \$150.00—and is never cut.

"When you buy a HOWARD you get something."

We are distributors for this distinctive watch.

Trustee Tabor says Fight.

W. E. Shuman, the local representative of Trustee Tabor, has received instructions to resist with all possible force the contention of the Union Pacific in the suit filed for 100 feet additional right-of-way. Though the strip in contest is of little value, and has really been dedicated for a public road, the trustee would ultimately lose at least twelve acres should the company win this test case. The Trustee's Chicago attorneys have investigated the contention of the company and believe there is no valid basis for the suit.

Improvements at Electric Light Plant.

Lester Walker went to Omaha Saturday night and while there purchased another boiler for the electric light plant. The boiler is of 250 horse power and will be installed in addition to the two 100 horse power boilers now in service. The new boilers will be shipped September 1. Mr. Walker also purchased a 150 kilowatt dynamo to take the place of two small ones now in service and a little later will add an additional one of 100 kilowatts. With the new fly wheel just received the plant will be better equipped than ever for taking care of the increased business.

Provide for the Crowd.

North Platte will be taxed to the limit next week to take care of the visitors who will attend the Firemen's tournament, Wednesday, Thursday and Friday. A committee has made a canvass of the hotels and rooming houses and find they will not be able to provide for more than fifty people in addition to the normal custom. From advices received railroad authorities estimate there will be at least fifteen hundred people come by train alone, making in all probability two thousand visitors to be provided for. The situation is such as to demand immediate and careful attention. Houses, in great numbers, will doubtless be opened, but some plan should be pursued by which all who have rooms to rent may let the fact be known that visitors can be directed accordingly. It has been suggested the newspaper officers be informed of such rooms and that signs be placed in windows or on porches specifying the number that can be taken care of. But in addition to this a lot of extra cots ought to be provided that no man, no matter how large the crowd, need be compelled to walk the streets. It is time to get busy in a systematic way or we will be surely up against it at the last minute.

She Likes Good Things.

The Court House, "A Dead Donkey" Says Wilcox.

Mr. Editor:—I have been requested by several who are opposed to voting the \$100,000.00 Court House bonds, to write you another letter, as there is much to be said against this proposition. But I do not desire to appear as one who would kick a "dead donkey," and unless it shows more life in the future than it has now, I will not impose upon your kindness with further communications.

Shop Working Hours Increased.

Effective Saturday the working hours for the men in the back shops was increased from forty to fifty. The working time has been eight hours a day for five days a week, with no work on Saturday. The new order means nine hour days for five days, with five hours on Saturday. The increase of time will affect one hundred and fifty men, and will mean an increase in wages of from fifteen to twenty dollars per month for the mechanics. The necessity of thus increasing the time to keep the motive power in good order is indicative also of the increased business on the road and the consequent better time for the trainmen.

For Rent.

The dwelling on West Third street owned by the Cotton Estate.

A Popular Young Lady Married.

Cards have been received announcing the marriage of Miss Anna Sorenson to Chas. Rankin, Thursday, August 20th, at the home of the bride's parents, Mr. and Mrs. John Sorenson at Los Angeles, Calif. Both of these young people are well and favorably known in North Platte. Mrs. Rankin was born and raised here. She is a graduate of our public schools, and was popular in social and active in church circles. Mr. Rankin for some years was in the employ of the Union Pacific working at this terminal.

The Tribune joins a hosts of friends in wishing this happy young couple all the joy and as little of the sorrow as may be possible in their marital relations.

New York to Paris by Wheel.

Robert Hillmarch, a German bicycle rider enroute from New York to Paris, and who will ride across America, through parts of Alaska, Siberia, Germany and France, arrived in North Platte Sunday evening. He left New York City a little more than four weeks ago without a cent, and his only collateral for the trip being an order on a steamship company for passage across the Pacific. He is obliged to work his way the entire distance, gaining maintenance as best he may.

The conditions governing the trip are that Hillmarch make the entire distance within the space of eighty days, and shall make it on the bicycle, without the use of any money of his own. If the trip is made in the required time a prize will be given the traveler of ten thousand marks, which is equal to twenty-five hundred dollars in American money. The money is given by the bicycle club of Germany, the Windbrant of Spandan.

Hillmarch was riding a German made bicycle and feels confident of his success. He left yesterday for Denver.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Mansuet, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '08, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes—60 cents and \$1.00.

Don't Spend \$3.50 When Fifty Cents Will do the Work

Prof. W. M. Hayes, Ass't. Secty. of Agriculture of the United States says about Stock Food: "These balanced rations are often found by analysis to consist of the tallings of milk, elevators and breweries, mixed with molasses and salt, to make the compound palatable to the cattle, and one of the largest Stock Food Companies is said to use fine sawdust, finely ground, to cheaply bring up the weight of his product, instead of buying a superior and expensive balanced ration containing high fattening qualities and acting as a tonic, he has paid a high price for a feed containing, along with ordinary grain, finely ground alfalfa hay and other common food stuffs, \$5.00 to \$25.00 per ton, a high percentage of refuse, and non-nutritious matter, some of which may be positively dangerous to the health of his stock."

Make your own stock foods and remedies by using Skidoo Horse and Cattle Tablets for horses, cattle, sheep, swine and fowls; proper doses in tablets. Mix in feed or salt. They contain no sawdust, ashes, chopped feed or bran. Ask for and try once Skidoo Condition Tablets or Eye, Colic, White Plague Preventive, or Blister Tablets, or Louie Keller, Spavin Remedy, or Barb Wire Liniment.
