Bushee, candidate for representative, L. L. Raymond, candidate for state senator and Governor Sheldon. The Governor devoted considerable time to telling of the management of the state institutions, and how faithfully the legislature had kept its anti-election pledges. Through the reduction of freight and express rates and passenger fare, the people had been saved between three and four million dollars per year, and notwithstanding this saving to the people, the railroads had been able to declare the usual dividends.

Notice to Electric Light Patrons.

We have expected delivery of a new dynamo by September 15th to handle the increased power house load as the heavy lighting season comes on, but delays have occurred, and we are now assured by the factory that shipment will be made on the 20th inst.

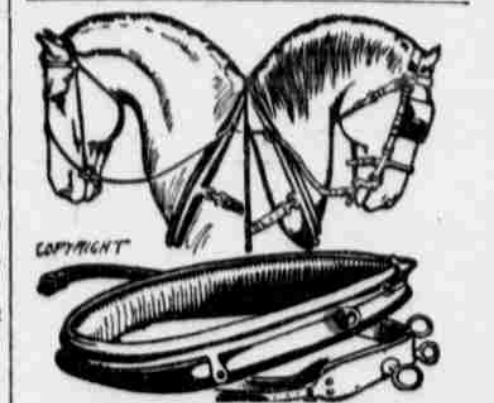

As we are now carrying an abnormally heavy load which will naturally increase considerably in the next two weeks, we earnestly request all our patrons to use as little light during this period, from 7 to 9 o'clock, as is consistent with their ACTUAL NEEDS. One or two lamps turned out in each of several hundred connections will relieve us enough so that we will not be compelled to cut off any part of the town.
