New York is not necessarily a pivotal state this year; either candidate can be elected without it, and yet it is more than likely that the candidate who carries New York will be the next president. As a matter of fact, Taft can be elected, even if Bryan carries New York, Ohio and Indiana; while on the other hand, Bryan might be elected if he conceded New York and Illinois to the republicans. It all depends upon the combinations that are made.

NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

He was arrested and lodged in jail.
