

The Twenty Per Cent Discount Sale

Considerable apathy exists among the voters in the country precincts of this county, and the chairmen of the two parties are now directing their efforts to getting out the indifferent voter. There are considerably over 3,000 voters in the county, but it is probable that a couple of hundred will not vote the time to go to the polls.

RAILROAD NEWS.

Engineer Calhoun returned this morning from Omaha, where he spent several days visiting friends.

Brakemen Culton and Nelson were given the conductors' examination yesterday and have, or will be, placed on the list of extra conductors.

Traffic on the road holds up wonderfully well, an average of 125 train orders being issued daily. Stock is running freely, and generally merchandise shipments are heavy.

Percy O'Brien had several fingers on his right hand badly cut and bruised the latter part of last week while running a drill in the shops. He will be off duty for some time.

A. M. Mason, who retired from the service of the company last July, has been officially notified of the pension he will receive from the Union Pacific. The pension dates from August first, and he will receive \$17.75 per month.

Two brakemen named Thorpe and Gratigny were fined ten dollars and costs each Saturday in the police court on the charge of annoying young girls on the streets the evening before. They will probably conduct themselves as becomes gentlemen in the future.

During the past two weeks several members of the car repair gang have quit the service of the company and their places have been filled with men who were on the "waiting list." Foreman McEvoy thinks that he will be authorized to increase his force in the near future.

Chas. Pass, who recently quit the service of the company on account of ill-health, has received notice that he will be given a pension from the company, the same to start with the month of August. Mr. Pass entered a shop in England more than fifty years ago, and his continuous work certainly entitles him to a rest.

Tomorrow will be the thirty-fifth anniversary of Fred Barraclough's service with the Union Pacific in the North Platte shops. Prior to coming here he worked a year in the Omaha shops. Fred is, we believe, the second oldest in the local shops, in point service the one exception being James Babbitt. If we were Fred we would lay off tomorrow and have a turkey and champagne dinner.

Superintendent Whitney of the Utah division of the Union Pacific has an automobile that runs on the steel tracks of the Union Pacific and he uses it in inspecting the road. It is a small automobile on trucks capable of carrying four passengers and can make a speed of thirty-five miles an hour. The machine is equipped with powerful brakes and also a skid by which it may be quickly removed from the rails. The seats are so arranged that the passengers may have an excellent view of the track and roadbed and a cover is also carried in case of storm. The car is about ten feet long and carries sufficient gasoline for a 100-mile trip. The motor car is run on a schedule under the direction of the train dispatcher.

The Masonic Temple was the scene of a very pleasant function Saturday evening when a very large number of Masons and their families indulged in an indoor picnic, the prime object of which was to do honor to Charles McDonald, who upon the day following would reach his eighty-second birth anniversary. Not only was this homage shown by reason of the years he had reached, his long residence in Lincoln county and his prominence in North Platte's commercial circles but also by his faithful membership in the Masonic fraternity, which dates since 1861. As

a memento of this fraternal faithfulness Mr. McDonald was presented by the lodge with a very handsome silver loving cup, the presentation being made by Rev. Charles F. Chapman in behalf of the lodge. The evening was enlivened with selections from a body of singers organized for the occasion by Mrs. Geo. W. Finn, and there were several short addresses by members of the order. At the close of the enjoyable program refreshments were served.

The affair was a complete surprise to Mr. McDonald, and the gift of the loving cup served to make him feel that "the tie that binds" grows stronger with the flight of time.

Start the Big Show.

Geo. Nunn, who will put on the Elks' minstrel show, met with the members of the lodge last night, outlined the program and enlisted the service of those who will take part in what promises to be the most varied, pleasing and successful minstrel performance ever given in North Platte.

As is customary, the first part of the production will consist of straight minstrelsy; solos, quartettes and choruses with full orchestral accompaniment, together with the usual jokes with local coloring by the end men. A number of strong local "bits" have been suggested and will be carried out.

The olio, or second part promises to be the big part of the big show, and figuring conspicuously in this will be Mr. Nunn's young son, who accompanies him, and who recently was employed in vaudeville in New York at a salary of \$100 per week. This youngster has a number of stunts that are particularly clever. Twenty or more boys and girls will also be employed by Mr. Nunn in presenting an act that is said to be one of the finest ever given on the stage.

Several traveling men who have been in town during the past week say they have seen Mr. Nunn's show in different towns of the country and declare they have never seen anything superior to it.

A Card to Voters.

Mr. Voter: I ask your support at the election next Tuesday, and if elected I will give the district my best effort during the session of the legislature. I have lived among you for over 20 years. I have been a homesteader, teacher, county superintendent of schools and merchant. I believe I understand the conditions that exist in western Nebraska and would be in a position to advance our interests in the legislature.

I am a firm believer in the policies advocated by President Roosevelt and Gov. Sheldon, and, if elected, will support all measures that benefit the common people. I am especially interested in our western schools and believe that every district in the state should have at least seven months of school. If the district tax is not sufficient for this length term, then the balance should be appropriated by the state.

I favor some needed changes in the primary law and the law on taxation. I believe that western Nebraska has a great future before it, both in irrigated and dry land districts and any legislation tending to assist in developing this part of the state will meet my hearty approval. Your support will be appreciated. Sincerely, B. K. BUSHEE.
