The preliminary hearing of Henry Geise, charged with stealing cattle and goods, was begun in the county court yesterday forenoon and is still in progress at this writing. It is the impression that the state will be allowed to produce all its evidence, and that Geise will then waive examination and be bound over to the district court, which convenes next week.

Wilcox & Halligan, of this city, have been employed to assist in prosecuting Harry Dale Smith and Mrs. Geiger, who are charged with the murder of Volney Mann in Keith county. The case will be tried at the term of court to be held March 1st. Mrs. Geiger is described as a degenerate and Smith is a fellow who seems to have little force.

Mr. and Mrs. A. F. Streitz and son returned Sunday from Washington, D. C., where they visited Mr. and Mrs. Alex Stewart and their daughter Ruth for several weeks. Mr. and Mrs. Streitz had a delightful stay in Washington. They were present as guests at one of the diplomatic receptions at the White House, a function that was "swell" in every sense of the word.

Prof. Leonhart desires to state that he has discontinued work in all towns but Omaha, Kearney, Lexington, Ogalala and North Platte in order that he may be able to fill all yearly contract work on time. The people of North Platte can congratulate themselves that Prof. Leonhart has included North Platte in his list as he is one of the recognized piano tuners of the west. He will return to North Platte about June and all orders left at Rincker's store will receive his prompt attention.

Jack Curtain, who shot and killed a policeman and wounded a detective in Omaha, last week, and was shot in return, is the fellow who twelve years ago held up John Beyerle in his room in the Hinman block, and was subsequently arrested at Dickent. Briefs in case of Hankins versus Reimers are being printed preparatory to presenting the case on appeal to the supreme court. Hankins, as administrator of the estate of Canna Spencer, sued Reimers for the death of Spencer, who was killed by falling earth while digging a cave for Reimers in May, 1907. The case was tried in the district court of this county and the jury found for the defendant Reimers. An appeal is taken to the supreme court on the ground of erroneous instructions to the jury.

"Too Late, Too Late!"

You remember, I'm sure, the story of the seven wise and seven foolish virgins who were waiting for the bridal party, intending to accompany it to the wedding feast. You remember how the wise virgins kept their lamps filled and burning, and were prepared when the time came, while the foolish ones, letting their lamps burn out, were met with the cry "too late, too late!"

There's a somewhat similar note of despair in life insurance. Forty-four hundred and fifty-one persons applied to the New York Life in 1908 for over thirteen millions of life insurance. Forty-four hundred and fifty-one people whom, for one reason or another, the Company could not accept.

These applicants were declined, and met with the metaphorical cry "too late, too late, ye cannot enter here."

These 4,451 people had frittered away their chances, wasted their many opportunities, and found at last when they did apply for life insurance that, alas, they couldn't get it.

Most people think they can get life insurance any time they want it. All they have to do is to ask for it. All they have to do is to let some one take their applications. Not so. Here were over four thousand bona fide applications that didn't bring insurance. Probably the vast majority of these laggards might have been insured, if only they had applied in time—i. e., before they became uninsurable. But they didn't, they drifted along in fancied security—and with what dread result!

Don't you be like one of the foolish virgins, drop us a card that you are interested or call at our office, and we will explain the many good features of the New York Life Policies. TEMPLE REAL ESTATE AND INSURANCE 1 and 2 McDonald block. AGENCY.

City and Suburban Homes

RESIDENCE LOTS

Trustee Tabor still has for sale quite a number of residence lots on Second, Third, Fourth, Fifth and Sixth streets of the Trustee's Addition.

The physical conditions of these lots are better for residence purposes than in any other part of the city because:

These lots are located between the U. P. R. R. tracks and the B. & M. right of way and it will never be necessary to cross a railroad to get to the homes built thereon.

These lots are within six blocks of Dewey street.

The sewer lateral has been placed in all the alleys so that every lot owner has access to the sewer, and this sewer is deeper in the ground than in any other part of the city. This makes it possible to have deeper cellars and makes the land higher and freer from surface water than in any other part of North Platte.

A five foot cement sidewalk with crossings has been constructed upon the north and south sides of each block of the Addition.

The city water pressure is greater than elsewhere in the city, because of the weight of the water in all the pipe mains to the west. The actual test made during the summer showed the water pressure in the Trustee's

Addition to be 43 pounds per square inch. This gives better fire protection and better water service for sprinkling lawns, etc., than is to be found elsewhere in North Platte.

Telephone, electric light and water service can be had anywhere in the Trustee's Addition as readily as elsewhere in the city.

Arrangements have been made for the erection of three new two story homes in this Addition this spring; besides there will be quite a number of other homes, so that this will be the nicest and most modern part of North Platte.

LOW PRICES

You cannot buy a vacant residence lot as close to the business portion of the city and improved as well as these lots now are, unless you pay at least twice as much money as the Trustee sells these lots for. The prices range from \$237.50 to \$380 cash. This allows a five per cent discount for cash and the lots will be sold with a small payment down and easy terms to those who want to buy in this way. The Trustee will sell 44 or 66 foot or greater frontage just as buyer prefers.

City Blocks for Suburban Homes

The Trustee has platted 77 city blocks located from eight to twenty blocks from Dewey street between the rights of way of the two railroads. Each of these blocks contain almost three acres. They are splendid tracts for garden patches, fruit and poultry farms.

These lots are just outside the city limits and within the North Platte school district. The lots therefore do not have to pay the heavy city tax. The taxes on these blocks for the next four years will not exceed forty cents per acre.

Everyone of these blocks front on a regularly laid out street of the city. Each block is situated exactly in conformity with the blocks of the city and if any block owner should ever desire to subdivide his block into city lots he could do so without difficulty.

Prices Your choice of the blocks for \$350. Prices from this down to \$150 per block.

Terms Five per cent discount for cash, or ten per cent down and balance in small monthly, quarterly or yearly payments to suit buyer.

The Trustee is selling his property on easier terms than any real estate is sold in Lincoln County.

I will be glad to go at any time with any parties to show these lots or city blocks and furnish any information concerning the same.

Attorney for Roy B. Tabor, Trustee.
