It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. It's a godsend, to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., but Electric Bitters cured me entirely." Only 50 cents at Stone's drug store.

**BROOD SOW SALE,**  
At U. P. Barn, Lexington, Neb.,  
**Saturday, Feb. 27th, 1909.**

12 Cows and Heifers. . . . . 12 Bulls.  
25 Bred Poland China Sows.  
. . . . . 25 Bred Duroc Jersey Sows.

The cattle are in the best of breeding condition. Most of the cows are excellent milkers of good gentle disposition. They are of the large heavy boned type and of the most popular strains known to the breed. The only just criticism is they are too heavy milkers for those who wish the calves to run with them, and have to be milked from six to eight weeks. To avoid this we put two calves on one cow and milk the other. Prof Jensen in his remarks on the street judging exhibition at last year's Farmers' Institute said that they are unquestionably the best breed of cattle for the average sized farm, and were justly worthy of being called a dual purpose cow.

The brood sows are the best offering I have ever put in the ring and most of them show their guarantee. We have mated for a prolific, heavy boned, lengthy, broad and well arched back, straight legs and good feet, without sacrificing feeding qualities, and will leave it to you to judge sale day how well I have succeeded. In some instances I have obtained better results than I expected. The mated sows have passed through the cholera, and the gilts have been immuned by the Ridgeway process.

A credit of eight months will be given on bankable paper at eight per cent. Sale will begin at 10 a. m. There will positively be no postponement. Send for catalogue.
