For a good cup of Coffee try Mogul. Wanted—An able man to announce himself as a candidate for mayor at the approaching municipal election. Don't Spend \$3.50 When Fifty Cents Will do the Work

Prof. W. M. Hayes, Asst. Secty. of Agriculture of the United States says about Stock Food: "These balanced rations are often found by analysis to consist of the tallies of mills, elevators and breweries, mixed with molasses and salt, to make the compound palatable to the cattle, and one of the largest Stock Food Companies is said to use fine sawdust, finely ground, to cheaply bring up the weight of his product, instead of buying a superior and expensive balanced ration containing high fattening qualities and acting as a tonic, he has paid a high price for a feed containing, along with ordinary grain, finely ground alfalfa hay and other common food stuffs, \$5.00 to \$25.00 per ton, a high percentage of refuse, and non-nutritious matter, some of which may be positively dangerous to the health of his stock."
