A Denial from High Authority

From "National Food Magazine," Chicago. Dr. H. W. Wiley, Chief Chemist of the Agricultural Department, has demanded of the Calumet Baking Powder Company, of Chicago, that it cease the publications of alleged certificates or statements that he had endorsed the Calumet Baking Powder, or reported in favor of its purity, wholesomeness or superiority. Such statements, he says, are false.

Dr. Wiley has never served upon a committee of awards, as alleged, nor signed such a report or certificate, nor did he ever indorse Calumet Baking Powder in any way. On the contrary, Dr. Wiley testified before a Congressional Committee relative to alum in food, as follows: "As I have said repeatedly, I do not use it in my own home, and would not use alum bread if I new it. Alum is injurious."

It seems that Dr. Wiley's demand that the Calumet Company should cease these publications, which are, he says, "against the truth," was not complied with, although he says he has done all he could "to stop the base and inexcusable use of his name."

The public will share in Dr. Wiley's indignation that his name and official position should be fraudulently used to aid in foisting upon customers a food compound made from ingredients which the Doctor has publicly declared to be injurious.

We Believe

In good advertising. But we believe mostly in good Merchandise.

QUALITY vs. CLAIMS.

With some stores it's "much din and little done." Easier to make claims than to substantiate—there's the reason. But isn't it more profitable for you to form a co-partnership with such merchandise as ours? We handle a fine line of perfumes, toilet water, face powder, and all toilet articles. We also handle a nice line of hardware, tinware, granite ware and notions of all kinds.
