THE WILY COMEDIAN.

His Mixup With a Contract, a Legal Fee and an Opinion.

There was a certain comic opera comedian who made no end of money it. He was almost morbid on the subject, in fact, and there were those who cree of the great revolutionaries. said that he went to evening instead way of explaining the grief which once befell him in Cleveland.

a frigid reception, which stage people call a frost. 'The comedian wasn't going to run any risks. He wouldn't play at the theater unless a certain amount of money was promised him. The manager of the theater offered a very large percentage of the receipts; but, oh, dear, no, the willy comedian wasn't going to be caught by such chaff as that. He insisted upon a lump sum regardless of receipts. The sum was guaranteed, the contract signed. The comedian came to town and, strolling as if by chance into the box office. asked how the house was selling.

"Oh," said the ticket seller, "we sold every scat in the house ten days ago!" The comedian's blood bolled.

"Would," said he to himself, "ob, would that I had accepted the percentage! It would have been double what I get now "

It was too inte, however, to rely on simple woulding to change matters, so he sought the foremost attorney of the town, showed him the contract and expressed his desire to break it and abide by the customary percentage plan. Before the attorney would consent to express an opinion the question of fee came up, and the comedian handed him \$500. The man at law then took the paper and examined it.

"My dear sir," said be, "that contract can't possibly be broken. I drew It up myself."

It is not told what the temperature of Cleveland according to the government report was that day, but in the neighborhood of that comedian things fairly sizzled .- Washington Star.

COAL AS FUEL.

It Was In Use as Far Back as the Time of King Solomon.

The Teuton termed it the "last baptism," and he did not allow his powers of imagination to sleep when he set about devising additional varieties which should add to the excitement attending upon the doomed person's departure from life. The convict was sewed up, Monte Cristo fashion, in a bag, and with him were inclosed a vicious dog. a hungry cat, a violent rooster, a venomous viper, all very much alive and presumably kicking.

For what reason it is hard to see, but death by drowning was by many peoples considered preferable for criminal women. In the case of very debased or very mean offenders the Romans had a more or less pleasant fashion of drowning the doomed ones in marshes, first incasing them in elaborate crates.

For refined cruelty in killing off their female criminals the earlier Albanians were certainly the most inventive in the matter of ingenuity. It is commonly known, of course, that even the modern Albanian has less respect for womankind than any other known male In the human catalogue, not even excluding the Chinese. DEMOCRATIC PEERS.

The House of Peers Not One of Birth or Ancestry.

Strangely enough, the house of lords still remains the most democratic institution in England. It may still claim for itself to be the Witenagemot. or gathering of wise men, and one wonders why it does not defend itself along those lines.

It is not a house of birth or ances try, for it is composed today to an overwhelming extent of successful men from almost every walk of life. No one cares a fig what a man's ancestry was in this matter of fact land If he succeeds, if he becomes rich and powerful.

The mother of the great Queen Elizabeth was the daughter of a plain English gentleman.

A pot girl of Westminster married the master of the pothouse. After his death she consulted a lawyer named Hyde, Mr. Hyde married her, Mr. Hyde afterward became lord chancellor, with the title of Lord Clarendon, and his wife, the former pot girl, bore him a daughter. This daughter married the Duke of York and became the mother of Mary and Anne Stewart, both afterward queens of England. It is evident that if queens of England may have a bermaid for grandmother lesser mortals need not fret on the subject of ancestry.

The Englishman would not be what he is nor would he in the least he transmitting his very valuable Saxon heritage if he gave up his democratic custom of an aristocracy of power for the feeble continental custom of an aristocracy of birth. What the one and the other is today answers the question as to the relative merits of the two systems without need of discussion. The English, though nowadays many of them do not know It themselves, are the most democratic of all nations.

William the Conqueror divided Eng land among the commanders of his army and conferred about twenty early doms. Not one of these exists today, nor do any of the honors conferred by William Rufus, 1087-1100; Henry L. 1100-1135; Stephen, 1135-1154; Henry IL, 1154-1189; Richard L, 1189-1199; or John, 1199-1216.

How Germany Deals With the Waster. Germany has a law that provides that if it can be proved that a man is earning a sufficient wage to support those dependent on him, but that he is dissipating that wage by vicious habits, he can be declared a minor, and he is then treated as a child. His employer is told that the wage must be paid not to the man, but to a guardian appointed by the magistrate of the district in which he lives, who uses it for the support of the wife and children. In England a man who could not get his wage might refuse to work. In Germany the police would see that he did his work .- Progress.
