W. W. White was denied a liquor license at Brady by the board of trustees at a meeting held Wednesday evening. Two of the trustees were disqualified from sitting at the hearing for the reason that they had signed the applicant's petition, and the other three members of the board voted against the license on the grounds that the petition did not contain a majority of the freeholders. W. E. Shumau represented the remonstrators and L. E. Roach the applicant.

The report of the decision in the U. P. right of way case recently rendered by Judges Munger of the federal court, as published in the Omaha papers was misleading in that the decision did not give the Union Pacific the right to 400 feet of right-of-way, but rather that the company had the same right-of-way through certain school sections in Platte county as it did anywhere, but the 400-foot question did not enter into the case. Local parties have written for a copy of the decision and its main points will be published.

Iddings Mill Sold.

One of the largest deals that has been made in North Platte for some time past was consummated Tuesday when The C. F. Iddings Co. sold the flouring mill to John Lemmer, of Cedar Falls, Ia., and associates. The purchasers have unlimited financial backing and it is the intention to make the mill the equal of any in the state in the quality of its products. The company has been incorporated as the North Platte Mill and Grain Co.

Mr. Lemmer, who is president and general manager of the company, will at once remove to North Platte and assume active management. For twenty-five years past he has been manager of the Cedar Falls Mills Co., the largest concern of its kind in the state of Iowa, and his long association with that company has made him one of the best known mill men in the west. He will aim to make the North Platte mill to Nebraska what the Cedar Falls mills are to Iowa—the best in the state.

Mr. Lemmer will thoroughly overhaul the mill, add new machinery, and will not be satisfied until he produces a flour second to none in the country, and one that will make a reputation for North Platte.

The Tribune is glad to welcome Mr. Lemmer to North Platte, for it feels confident that his coming will tend to increase the commercial activity of North Platte in making it a greater grain and milling town.

The Harriman Twins.

The "Harriman Twins" came in from the east Wednesday, and were the center of much interest and speculation by road men. By way of information it is stated that the twins are two monster oil burning locomotives, the like of which has never before been seen. These engines look as though the bodies of two locomotives had been backed together. There are eight drive wheels and two pony wheels—one of the latter in front, the other under the cab. The total length of the engine and tender, over all, is ninety-three feet and the weight with tank filled with oil and water is 600,000 pounds.

Cadets Go to Camp.

Forty-nine members of the high school cadet company left early yesterday morning for Gothenburg, where they will go into camp for five days, returning home Monday night or Tuesday morning. He will also attend the state high school debate, and the meeting of the ornithological society, of which he has been the secretary for several years past.

Manager Kubik, of the opera house, is well advertising the championship wrestling match which will be held in this city May 22d between Gotch and Pearson, and it is expected that a big crowd of out of town people will attend.
