Sidney Wins a Listless Game.

The Sidney ball team defeated the local team yesterday in a long drawn out and gingerless game by a score of four to two. The game was devoid of sensational features, and the local team failed to put up its usual article of ball, errors were rather numerous and the customary team work was lacking. The visitors made two runs in the second inning, one in the fifth and one in the seventh, while Green's men made their two scores in the fourth. Sidney has a very good team, the battery, the short stop and one of the basemen being salaried men. That they should defeat North Platte was a source of much satisfaction to the accompanying manager, Simon Fishman, and several other Sidneyites who accompanied the team.

At the meeting of the city council Tuesday evening the water committee, to which had been referred the appraisal made by City Engineer Welch, made its report recommending that the water company appear before the council at the earliest possible time and show cause why the appraisal made by the engineer should not be accepted as a basis for the sale price of the plant. The water plant was appraised three years ago at \$85,000; Engineer Welch says the present plant can now be duplicated for \$75,000, and that making liberal discount for depreciation the value of the plant is now in round numbers, \$53,000. Whether the company will accept the latter sum will develop when Mr. Hoffmaster or some other representative of the company meets in conference with the council. This conference is requested to be held not later than the next meeting of the council, which would be June 15th.
