The production of "Hamlet" given at the Keith Tuesday night by Sanford Dodge & Co. was as a whole very good. Shoot at Close Range.

Chief of Police Lowell is alive today only through the poor marksmanship of a fellow supposed to be a burglar. Lowell takes a scout through the west end of town frequently after midnight. Tuesday night as he passed up Fourth street he saw a fellow lying on the porch of the Waltham residence. "What are you doing there?" he called to the fellow, and the latter quickly jumped over the railing and started to run. Lowell pulled his gun and fired, and for protection the fellow got behind a tree, and as Lowell reached the tree the fellow fired a 38-gun into his face, the powder burning his eyes but the ball passing harmlessly by. The fellow then took to his heels, but blinded by the powder and partly stunned by the concussion, Lowell was unable for the moment to follow, and when he recovered the fellow had jumped a fence and escaped in the darkness. Lowell fired a parting shot in the direction of the course taken by the one who had so near sent him to kingdom come.

A Suggestion.

The Tribune does not presume to tell the Union Pacific what are its needs or what course it should pursue locally, but it respectfully suggests that the North Platte depot is not in keeping with the roadbed, the train service, the motive power or the earning capacity of the "Overland Route". The sales of tickets at the local depot aggregate thousands of dollars monthly and that means that the depot is the temporary waiting place of hundreds of passengers. That these waiting patrons of the Union Pacific have an uncomfortable place to pass the necessary time is unquestioned; the fact is, the general condition of the one room is such as to prove disagreeable to any lady, not only because she is thrown in contact with men of all descriptions, but on account of the foul odor which practically at all times pervades the room. We believe General Manager Mohler and Genl. Supt. Park should become more intimately acquainted with the exact condition of North Platte's depot, and that such information would result in a recommendation for more adequate and more pleasant depot accommodations.

"SHOW ME"

While probably only a small percentage of prospective purchasers of mowing machines are born in the state of Missouri, there seems to be no remark that applies more perfectly to the condition of mind of mower buyers than the one that is nationally associated with the state of Missouri, "Show me." In no other way do the majority of us get so good an idea of an article or proposition as by seeing. Prospective mower buyers come in and see the old reliable Standard Mower. It was the best mower fifty years ago and it is the best today. We carry all sizes of the mower and rake.

Yours for the Mower trade,

Workman & Derryberry.
