With a daily train service soon to be inaugurated and a telephone service between the two points named, the people of the North Platte valley will soon have these modern facilities for which they so long wished.

Julius Pizer returned the latter part of last week from his business trip to New York. He found the weather almost unbearably hot in that city, but managed to endure it by taking almost daily trips to nearby seashore resorts. Mr. Pizer says all lines of goods are advancing in price, particularly ready-made garments, which have gone sky high on account of the long continued strike of the tailors in New York.

H. C. Stanley, a supposed traveling man who registered at the Pacific the beginning of last week, suddenly departed on Thursday without paying for his meals and room, amounting to \$3 or \$9. He told a hard luck story about losing his pocket book and was waiting for a check from his home. After borrowing a little change from Manager Sitton, he disappeared and the management is now hot on his trail.

Will Ross and Ed Wright, who were down from Myrtle Saturday, said corn in their immediate section is in first class condition, and they were of the opinion that one more good rain would make the crop.

The county commissioners will reconvene in session tomorrow. It is expected that the delayed returns from the state board of equalization will have been received by that time, in which event the tax levy for the present year will be made.

A. E. Timmerman will today remove his saloon to a little frame building he has erected on the rear of his lot, which he will occupy while the new brick building is being erected. The building now occupied by him has been purchased by C. F. Perry and will be removed to the Third ward and used as a stable.

School time will soon be here, and you will need to get your boys and girls clothed for that purpose. The Leader has just received a fall line of goods from which you can dress them from head to foot, whether you want to make the goods up or buy the garments ready made.

One of the cars conveying the ball players from Moorefield broke down a dozen miles out of town and the occupants hired a team to bring them the remainder of the distance. The disabled car was towed in and repairs were completed yesterday, the players remaining until this morning.

Twenty thousand yards of embroideries just arrived at The Leader, which are placed on sale at prices that will save you from 25 to 50 cents on the dollar. Don't fail to see them.

THE LEADER.

The North Platte Mill & Grain Co. has received a shipment of pulleys, shafting, sprocket wheels and steel conveyors to be used in making improvements in their mill before starting on the new wheat crop. The company has also received a shipment of twenty chilled iron rolls which they had reground and recorrugated at the Sunderland Corrugating Works at Omaha.

"North Platte as far as lawns and trees are concerned beats any town you see in the east," remarked Rev. Herbert Covell, of Long Island City, who is visiting his parents. "But there is one thing that detracts from your otherwise beautiful little city, and that is the rank growth of weeds along your streets and on the vacant lots. Clear these away and your town will be a gem in attractiveness."

The Union Pacific is preparing to enlarge its terminal facilities at Grand Island. These improvements include a \$20,000 freight depot. To provide room for the new depot, the city of Grand Island has closed Kimball and Plum streets and opened Oak street. Business at Grand Island has increased considerably of late, more business coming and going over the St. Joseph and Grand Island, which requires transfer at Grand Island.

The North Platte Mill & Grain Co. has purchased from Fairbanks Morse & Co. a four ton type registering scale with a controllable dump for unloading grain and will install it at once at their mill and elevator. This is the latest and most accurate scale built by the Fairbanks & Morse Co. With the type registering mechanism it is an impossibility to make an error in the weights, as by the movement of a lever the exact weights are impressed by a steel die into a card in duplicate form.

State Ball League.

The gossip of organizing a state ball league composed of teams along the Union Pacific has been revived, and it is proposed to call a meeting sometime this fall and organize for the 1910 season. The plan is to organize a six-club circuit composed of Fremont, Central City, Grand Island, Hasting, Kearney and North Platte. These are six towns that have always had good teams and the games have been well supported. We believe that this plan to form a league of the above towns will be received with favor in North Platte, though there must be a reasonable limit to the salaries paid teams as a whole, or individual players.

Real Estate Sales.

Buchanan & Patterson closed two large real estate deals last week, the total purchase price of the two amounting to \$35,000. The purchaser is a Mr. Carpenter, of the east part of the state and a brother of the gentleman who recently purchased 600 acres of the former Mylander ranch. The land purchased by Mr. Carpenter was section 9-10-31, the east half of which was owned by a Mr. Nunn, and the west half by Buchanan & Patterson, the price for the section being between \$24,000 and \$25,000 and the other tract sold Carpenter was the Geo. A. Walker place of 320 acres southwest of town, for which \$10,500 was obtained.

The west half of section 9 is part of the former Meyer land recently bought by Buchanan & Patterson (or the Union Realty Co., which is the same) and the firm has also sold the east half of section 8, which was also included in the Meyer deal, thus closing out the Meyer place two or three weeks after purchasing it.

Getting Ready for Fall Trade.

Julius Pizer returned last week from New York, where he spent a month buying a fall stock for The Leader, and judging from the amount of goods now being received, Mr. Pizer's purchases evidently made quite a hole in the stocks carried by the wholesale houses. Mr. Pizer went east early this season in order to purchase fall and winter goods prior to the passage of the tariff bill, which caused a rapid advance in many lines of goods. By making his purchases early he received the advantage of the former low price, and his customers will reap the benefit of those low prices. Mr. Pizer anticipates a heavy fall trade in North Platte, and has accordingly bought a larger stock than usual, and the force of clerks are now busy marking and placing the goods in order to be ready for an early fall trade.

Every department of the big store will be found chock full of the latest goods, and customers will find at The Leader the most complete assortment ever brought to North Platte.

Ball Games.

In the second game of ball played with the All Stars of Omaha Friday afternoon, the locals won by a score of three to one. John Bailey, the veteran slab artist, was in the game and not only kept the visitors down to five hits, and struck out six, but fielded the position in fine form, making seven or eight assists. In the fourth inning Eddie Paul made a home run, and there were a number of sensational plays that kept the small crowd of spectators in good humor notwithstanding the intensity of the sun. The visitors made their one run in the fourth; while the locals made one in the second and two in the seventh.

Saturday the team from Maywood came up and played the locals, but proved to be too slow company for Elliott's men, the score standing seven to two in favor of North Platte. The Maywood team brought a very good battery, but the support given at times was very weak. The North Plattes took ten hits off the Maywood pitcher, while Maywood took six off Lowell.

The U. P. shop team of Omaha arrived this morning and will play the local team this afternoon and tomorrow afternoon.

At Coney Island park Sunday afternoon the Machinists' ball team met defeat at the hands of the All Stars by a score of thirteen to ten. Priest and Quimette was the battery for the machinists and Schatz and Pass for the All Stars. The latter secured a lead in the early part of the game and maintained it throughout.

In any city you will find the best residence district adjoining the city parks. The same will be true in North Platte in a few years. The city park purchased from Roy B. Tabor, trustee, is to be improved with trees, etc., next spring. It will probably be the only public park North Platte will have in many years. It will contain eleven acres. Now the opportunity exists to buy residence lots adjoining the city park site. These lots are improved with five-foot cement sidewalks, graded streets and sewer, and the prices and terms are right. The Trustee still has for sale a number of corner lots adjoining the park site. These are for sale by
