The production has been augmented with an enlarged chorus of thirty bewitching and clever young ladies who know how to wear stunning gowns in befitting style and grace; new scenery, elaborate stage and electrical effects and song hits of the tuneful, catchy variety.

Seats For "Man of the Hour"

Announcement is made that seats for the performance of "The Man of the Hour" at the Keith Theatre on Saturday, Oct. 16th, will be placed on sale Friday morning. It is not likely that the current theatrical season will bring in anything of greater interest or worth or a magnet of any greater drawing power than "The Man of the Hour," which is now in its fourth season and which is conceded by press, public and managers alike to be the biggest success that has been offered in years. The play ran for two solid years at the Savoy Theatre in New York; this was followed by a period of sixteen weeks in Chicago, and that, in turn, by five months at the Tremont Theatre, Boston. Manager William A. Brady and Joseph R. Grismer are the producers of the play, which is the work of the well known author, George Broadhurst.

Frightful Fate Averted.

"I would have been a cripple for life, from a terrible cut on my knee cap," writes Frank Disberry, Kelliher, Minn. "without Bucklen's Aroclen Salve, which soon cured me." Infallible for wounds, cuts and bruises, it soon cures Burns, Scalds, Old Sores, Boils, Skin Eruptions, World's best for Piles. 25 cents at Stone's Drug store.

Trespassing Accidents.

Trespassing on railroad property, in violation of the law, has been responsible for the death of 47,461 people in the United States in the last ten years. In the same period, more than 50,000 trespassers were injured. It is in view of these facts that many of the important railroads have determined to redouble their efforts to secure in this country that rigid enforcement of the law against trespassing, which, in England, has reduced the practice—and accidents to trespassers—to a minimum.

The number of people killed while trespassing on railroads has been increasing every year. In 1898, 4,063 trespassers lost their lives on American railroads; five years later the number was 5,000 and in 1907, the number killed was 5,612—more than fifteen a day. These figures are taken from the annual reports of the Interstate commerce commission. It is not only tramps who are killed and injured while trespassing—though thousands of them lose their lives in this way every year—but also men of the laboring class, factory workmen, their wives and children, who use railroad tracks as thoroughfares.

Golden Wedding.

Sunday, Sept. 25th, Rev. and Mrs. James Romine celebrated in a quiet way the 50th anniversary of their wedding. On the 26th day of September, 1859, James Romine was married to Sarah E. Eblen at Pomeroy, Ohio, by Rev. Peter Loyd. Ten years were spent in Ohio, then they removed to Missouri, where they remained until 1874, then came to Nebraska, living in Nebraska since. Rev. Romine enlisted in the army during the civil war as a volunteer in the 36th Ohio infantry and served a little more than two years. Rev. Romine engaged in the work of preaching the gospel about twenty years ago and spent eighteen years in the service, retiring two years ago because of old age. Among his various pastorates he was pastor at West Buffalo, four years, New Hope, three years, and at Maxwell. Ten years of his service he made his home in Brady, the last three near Maxwell.—Brady Indicator.
