With this plant in the home, laundry work becomes play—the servant girl question is solved—and good laundry work no longer depends on the laundress.

The Thor Electric Washer and Wringer

Reduces cost of washing to 2 cents—time to 1 hour—and does away with all the usual health-destroying work of wash day. It washes delicate laces—heavy blankets beautifully. It is equipped with a 3-roll self-working wringer and a patent gas water heater. Anyone who can insert an electric bulb into its socket can operate the Thor Electric. There is no installing to

do—put the clothes into the machine—snap on the current and the Thor does all the work. The Thor Ironer is operated by the washer motor. It is a great convenience—ironing all flat work—sheets—pillow cases—tablecloths—napkins—handkerchiefs and towels, as well as suits of underwear and women's skirts and other articles of apparel.

This machine does everything but hang out the clothes. Call at the store and see it run. Sold on reasonable terms.

The Red Cross Tanning Process

The ordinary sole is tanned in six weeks; acids used to hurry the tanning process and burn the leather. This is why ordinary shoes feel hot and heavy, why they draw your feet. The Red Cross sole is tanned by a special process that takes six months—you can bend it double when new.

Such is the decree of Fashion and much foot suffering has been the result.

You may believe as many other women have that you have to sacrifice comfort to get style. You don't. You can get both in the same shoe.

Come in now and let us show you the Red Cross Shoe.

The Red Cross styles for Fall will please the most critical taste. The extremely short appearance they give your foot make them strikingly attractive. You will like the season's newest models; the still shorter effects; the new tops; the higher heels daintily shaped; the rich tones in dull leather.

And you will find the Red Cross Shoe absolutely comfortable the moment you put it on.

It is not the shape of the Red Cross Shoe that makes it so easy to walk in. Tanned by the special Red Cross process, its sole is flexible, it bends with your foot. You can select any style you prefer and wear it right out of the store.

Come in today and let us fit you

Oxfords \$3.50 and \$4.00.
High Shoes \$4 and \$5.
