### ANNOUNCEMENT.

All numbers will be given in the Keith Theatre.

Each entertainment will be started at 8:15 if the talent is ready at that time.

Of course you must have tickets at the door. We trust you, but there are others who can't be trusted and we have to treat all people alike.

This course merits a large attendance, not because of charity but because of its worth.

The proceeds of the course last year were less than a dollar. This year we have a more expensive course and yet have no fear that we will not come out even.

Culture counts; that is why we have the course. We do not make any money out of it.

If there is a balance large enough for the purpose we will have an extra number on the course to which all ticket holders will be admitted free.

### PRICES.

Season tickets reserved for all of the entertainments. Price \$1.50. These tickets are reserved all at once without extra charge. There are no seats for sale which are not reserved. This makes the cost of each entertainment just 25 cents for a reserved seat.

Single admissions will be as follows, for the first five numbers: Adults 50 cents, Children 30 cents. For the Orchestra tickets will be: Adults 75 cents; Children, 50 cents.

Tickets are for sale by High School pupils and others or may be secured at the box office.

## The Careful Mother In Selecting a Corset Selects the Gossard

For Her Daughter

SHE wants her girl to have a sound mind in a sound body. Her family physician has told her of the serious illnesses which result from constricting the waist line four or five inches.

### THE Gossard Corsets

"They Lace in Front"

are cut exactly like a surgical bandage. They gently support the organs, impel correct poise, deep breathing, correct position both sitting and standing, and have beautiful artistic lines.

Gossard Corsets are not expensive—as low in price as \$5.00. They are made of durable fabrics, light but strong, outwear several ordinary corsets, and are a real economy, because \$5.00 invested in a scientific corset, correctly fitted, may save hundreds of dollars in doctor's bills.

Fortunate indeed is the girl whose wise mother selects the Gossard for her first corset.

MISS ELLA McLEMORE

an expert corsetiere would like to meet every mother to explain these features.

## The Electric Home Laundry

This laundry equipment represents the modern way, the only sanitary way of laundering in the home. It is a very moderate priced equipment, designed for practical laundry work, and consists of a Thor Electric Washer and Wringer and Thor Ironing Machine. With this plant in the home, laundry work becomes play—the servant girl question is solved—and good laundry work no longer depends on the laundress.

### The Thor Electric Washer and Wringer

Reduces cost of washing to 2 cents—time to 1 hour—and does away with all the usual health-destroying work of wash day. It washes delicate laces—heavy blankets beautifully. It is equipped with a 3-roll self-working wringer and a patent gas water heater. Anyone who can insert an electric bulb into its socket can operate the Thor Electric. There is no installing to do—put the clothes into the machine—snap on the current and the Thor does all the work.

The Thor Ironer is operated by the washer motor. It is a great convenience—ironing all flat work—sheets—pillow cases—tablecloths—napkins—handkerchiefs and towels, as well as suits of underwear and women's skirts and other articles of apparel.

This machine does everything but hang out the clothes. Call at the store and see it run. Sold on reasonable terms.
